TIME EXTENSION FOR RELEASE OF CAPTIVES IN CHINA IS ASKED

Peking Government Wishes Diplomatic Representatives of Nations to Make Arrangements With Suchow Bandits; No Troops Other Than Chinese to Be Used to Uphold Law.

Peking, May 15.—General Tsao-Kun, Inspector-General of the Chihli, Shantung and Honan forces, at the request of the Military Governor of Shantung, has asked the Peking Government to secure from the diplomatic representatives in the capital an extension of the time for the release of the prisoners in the hands of the Suchow train bandits. The members of the diplomatic corps here seem to be fully impressed with the seriousness of the responsibility resting on them and have requested instructions from their respective governments.

It is understood that at present there is no question of employing alien troops, either as train guards or in any other capacity, the Government foreseeing the possibility of greater international complications than have been brought about by the Lanching affair.

It appears likely that the Government will be requested to appoint a commission of foreigners to traverse the railroad lines at intervals to make a check against the precautionary arrangements of the Government against holdups similar to the Lanching affair.

B.C. BEARS BURDEN FOR BENEFIT OF REST OF CANADA

Premier Oliver Succinctly Places Freight Rates Issue Before Kiwanians

Rail Charges Here Contrary to Terms of Union, He Says

In a compact statement, Premier Oliver at the Kiwanis Club to-day explained the whole rail rate fight which he and his Government are making for B.C. business and industry, and for the pocketbook of every consumer in the Province.

"In speaking on this question, I have referred almost exclusively to the Canadian Pacific Railway," the Premier said. "This for three reasons:

"First, the Canadian Pacific Railway is the railway built as an obligation of the Dominion Government to the Province of B.C. under the Terms of Union, and the transportation obligation of the Dominion to British Columbia which does not exist in respect to any other Province.

"Second, British Columbia was the only Province in Canada which contributed aid towards the construction of the Canadian Pacific main line of railway.

"Third, the Board of Railway Commissioners, in fixing rates, is governed by the standard of the Canadian Pacific Railway and not by the ability of the Canadian Northern Railway in B.C. on account of its superior grade, and the fact that its station at less cost than can the Canadian Pacific.

Railway Makes Zones.
"Railway rates are divided under two heads, namely, standard class rates applying to (as I understand it) less than carload lots of all kinds, and to carload lots other than those to which commodity rates apply. There are many classes under standard classification, each carrying its own rates.

"The Canadian Pacific Railway has for its own purposes divided its territory into four rate zones, two east and two west of Fort William. Separate rates apply to each of these zones. There is little difference between the two eastern zones, and for British Columbia the purpose they may be treated as one.

B. C. Rates 25 Per Cent Higher.
"The mountain zone embraces all British Columbia and part of Alberta, being 750 miles from the Pacific Coast, and class rates within this zone are now 25 per cent higher than are the class rates in the Prairie zone. Previous to August 1 of last year, mountain zone rates were 50 per cent higher than in the Prairie zone, but we got the excess rate reduced by one-half as a result of our application.

"The Prairie zone covers the area east of the Pacific zone and west of Fort William. Prairie rates are approximately 20 per cent in excess of Eastern rates.

"Commodity rates are special rates principally upon goods moving in large quantities and in carload lots.

STEFANSSON GOES TO OLD COUNTRY
Quebec, May 15.—Vilhelmur Stefansson, the Arctic explorer, passing through here to-day on his way to England, said he was not planning any more expeditions in the near future.

FOURTEEN IN MANSONVILLE, QUE., DIED OF TYPHOID
Mansonville, Que., May 15.—While improving, the typhoid epidemic here yesterday claimed its fourteenth victim.

Longer Time For Negotiations Given Russia By Britain

London, May 15.—It was announced in the House of Commons this evening that the British Government would reasonably extend the time limit set in the ultimatum to Russia so as to permit of further negotiations.

EFFORTS TO AVOID GREEK-TURK BREAK

Allies at Lausanne Try to Find Reparations Basis

Greeks Unwilling to Pay Sum to Turkey

Lausanne, May 15.—The efforts of the Allies at the Near East peace conference are being directed toward avoiding a possible break between Greece and Turkey over the question of reparations.

Former Premier Venizelos and M. Alexandris, the Greek Foreign Minister, had a lengthy conference yesterday with Ismet Pasha, head of the Turkish delegation. So far as appears no grounds for a speedy and satisfactory solution were discovered. It is declared, however, that Greece's position was emphatically stated by M. Venizelos and that he warned Ismet Pasha, with her army strong and well equipped, would not stand for any payment of reparations over and above the sum which it might be judged to be due Greece from Turkey.

BODY OF MAN FOUND IN VANCOUVER IS NOT IDENTIFIED

Vancouver, May 15.—Unidentified and unclaimed, the body of a stranger found on the False Creek flats some days ago was the subject of a coroner's inquest yesterday. Medical testimony showed that the man was found with the arm of the man was superficial and could not have caused death, while the evidence of Dr. G. F. Curtis, who performed the autopsy, satisfied the jury that death was due to pneumonia.

A verdict in accordance with the evidence was returned.

The body of the man are in the possession of the police and can be seen by anyone who knows of a missing man answering the published description of the stranger.

LARGER B. C. FRUIT CROP IS PREDICTED

Prospects at Present Brighter Than Usual, Says C.P.R. Report

Winnipeg, May 15 (Canadian Press).—Good progress in wheat seeding throughout the prairie provinces is reported in this week's crop report of the agricultural department of the Canadian Pacific Railway, issued here. Wheat seeding is from twenty-five to fifty-five per cent completed in Manitoba, twenty-five to seventy-five per cent in Saskatchewan and seventy-five to eighty-five per cent in Alberta. Early wheat is up in many sections of Saskatchewan, and is showing a good stand and color. Spring ploughing for oats and barley is well on in way. Fruit belt is above average. A considerable increase is expected in corn, sweet clover and other fodder crop acreage. Fall rye is now showing up.

Wheat seeding has been practically completed along the Edmonton, Dunvegan, and British Columbia Railway, and the grain is above ground in many districts, being two inches high at Spirit River. Rain is required at all points to assist the growth.

Seeding of coarse grains is also nearing completion.

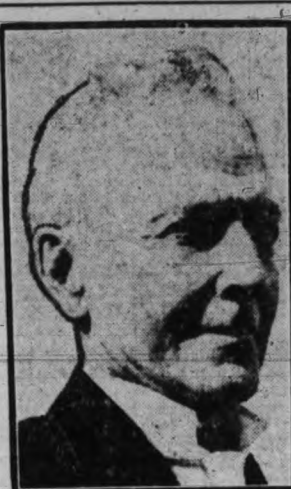

ITALIAN WOMEN TO HAVE VOTES
Encouraging reports have been received from all districts of British Columbia where beneficial showers occurred during the past week. Fruit blooms are very heavy and present promise is for a greater crop than for some years past, while the tonnage is estimated at from ten to twenty per cent greater than in 1922.

Two weeks earlier than last year, stone fruits were affected slightly by frost last week in some districts, but the damage was not serious. The Mission district expects to make its first shipment of strawberries in two weeks' time.

ALBERTA PREMIER VISITS OTTAWA; TALKS WITH C.N.R. CHIEF
Ottawa, May 15.—"Serious but not hopeless," was Premier Greenfield's characterization of the agricultural situation on the prairies here yesterday, particularly as regards his own province.

Premier Greenfield, who was in Ottawa over the week-end, went on to Montreal to interview Sir Henry Thornton, president of the Canadian National Railway, regarding the rate on Alberta coal.

IS HONORED BY CALIFORNIA; LUTHER BURBANK

On the fiftieth anniversary of the start of his work, Mr. Burbank, known internationally as a great horticulturist, is being honored by the people of Santa Rosa, California.

INAUGURAL TRIP OF FERRY MONDAY

Daily Service Between Bellingham and Sidney Will Be Opened May 22

Motor Princess First Diesel Engine Vessel to Be Built for C. P. R.

When the ferry Motor Princess leaves on Monday next on her inaugural trip to Bellingham the Canadian Pacific Railway will turn to a new chapter in the volume of development and progress.

For two decades the company has developed its steamship business on this coast from the sidewheelers to the modern steam floating palaces which give Victoria daily communication with the mainland. The Motor Princess represents a new departure for the company in two respects.

She is the first Diesel-engine vessel to be built by the company for the coastwise trade. She is also the first vessel that the company has had designed and built for the transport of automobiles.

Another feature that cannot be overlooked by the advent of the Motor Princess is the fact that the craft will be the means of linking up the splendid paved highways of Vancouver Island with the trunk paved roads of Washington out of Bellingham to the North and South. It means that thousands of American motor tourists will this Summer take advantage of the facility for easy and comfortable transport to see what has to offer on this island, and there will be a large number of motor tourists from this island visit the American coast.

Run Trials on First Trip.
The Motor Princess will make her initial trip to Bellingham on Monday when she will carry a number of public men across the Gulf to the Washington City. A number of the public men of the company will be on the return trip from Bellingham as the guests of the company on the Motor Princess. The guests will be entertained at the respective terminals.

The trip on Monday will be in the nature of a trial trip as it is proposed to test out the speed of the craft on the cruise to Bellingham. Before setting out from this port the Motor Princess will be given a spin over the measured mile. It is expected that the motor ferry will be turned over to the Canadian Pacific Railway to-morrow by Yarrow's, Ltd., the builders. The vessel has been given a preliminary test-run and decided satisfactory.

Regular Service.
The regular service will be inaugurated by the Motor Princess on Tuesday, May 22, a week hence, when the ferry will leave Bellingham at 8.30 a. m., returning from Sidney at 3.30 p. m. Bellingham is all ready for the arrival of the new ferry.

The launching of the big trust that carries the two-deck runway for the new ferry at Bellingham has been accomplished and the outer end has been firmly fastened to the float that will keep the runway constantly at the level of the boat's decks. Dredging of piling has commenced and the whole slip will be ready by the date set for the inaugural trip.

The Motor Princess is driven by twin 600-horsepower McAlister & Seymour Diesel-type engines, developing a speed of 14 knots, and will have a capacity of fifty automobiles and 250 passengers.

DIRECTOR COMING
Sir Ernest MacKay, prominent British Columbia, in his capacity of director of the British Columbia Electric Railway, is now visiting British Columbia, to inspect the interests of the company.

Local Manager A. T. Goward, to-day, is expected to arrive in Victoria on Thursday to look over the Island investments of the company, and its subsidiaries.

APPEAL TO BE EVANGELISTIC

Less Stress on Healing at Vancouver Price Services

Local Comment on Vancouver Criticism

Vancouver, May 15.—More evangelism and less faith healing will prevail at the meetings in the Arena Rink here being conducted by Rev. Dr. Charles S. Price under the auspices of the Vancouver Ministerial Association. At a meeting of the Association yesterday the controversy that had arisen as the result of resignation of some of the members from the campaign committee and repudiation by others of any responsibility for the conduct of the meetings was discussed and a decision arrived at to ask Dr. Price to put forward the evangelistic side of his campaign more strongly.

It was stated that the members of the committee were anxious that the supreme effort of the meetings should be made on evangelical lines and in this Dr. Price concurred. He pointed out, however, that so many had appealed for healing that this side of the mission had been forced upon him.

The Association accepted the resignation of Rev. A. E. Cooke as chairman of the management committee and named Rev. K. J. McIntyre to succeed him.

Much Discussion.
The difference of opinion in ministerial circles as to Dr. Price's methods is the chief topic of conversation in Vancouver to-day. The preparation of the Association's appeal, and Rev. A. S. Lewis were read with interest and form the basis for much controversy among ministers and laymen.

Objections to the healing phase of the campaign are based on the disappointment caused sufferers who have not been healed. It is stated that for one cure there must be 100 cases of failure, and the mental anguish which has resulted has caused many ministers to withdraw their support, it is said.

Local Opinion.
In an endeavor to secure an expression of opinion regarding the criticism of Dr. Price's evangelistic and healing campaign in Vancouver by Vancouver ministers it was arranged that a meeting of the Victoria Ministerial Association be held on Monday to support the Dr. Price campaign and also to attend the B. C. Methodist Conference in New Westminster.

Rev. W. Lashley Hall, of Belmont Methodist Church, who left for Vancouver to-day, is expected to attend the conference at New Westminster, stated that the resolution of endorsement passed by the Victoria Ministerial Association was still in effect and had not been varied. He said that "the resolution stands as a full and frank recognition of his evidence. Christ is the healer, but does not deny individual ministers from differing with him on distinctive points; nor does it commit the church as a whole to endorsement of all that is said and done."

"There is no doubt," Mr. Hall continued, "of a genuine religious quickening on the part of many," (Concluded on page 3.)

DE FREYCINET DIED IN PARIS

Former Premier of France Was Ninety-four

He and Clemenceau Were Old-time Friends

Paris, May 15.—Charles Louis de Freycinet, former Premier of France, died at his home here to-day, it was announced at noon.

M. de Freycinet, who was ninety-four years old, had been in feeble health for some time. He and former Premier Clemenceau were old-time friends, and it was recalled to-day that one of the first visits "The Tiger" paid on his return from the United States in January was to Freycinet, with whom he discussed his trip and the reparations question. The aged de Freycinet became somewhat excited during the discussion by the two statements of Germany's conduct, and after the visit of Clemenceau his physicians forbade other visitors for some time.

In February, however, he was so far improved that he was able to attend the meeting of the French Academy and take part in its business, and also pay a visit to Premier Poincare.

Charles Louis de Freycinet graduated from the Polytechnic and Mining School in Paris as a Mining Engineer. He became a member of the Ministry in 1877. He became Premier and Minister of Foreign Affairs in 1898, and was again Premier and War Minister from 1888 to 1893. He was the author of a number of works.

RED FLAG AND PAMPHLETS SEIZED IN GLACE BAY
Sydney, N. S., May 15.—The huge red banner which gained notoriety in the recent May Day parade and a large quantity of alleged seditious literature were seized by a detachment of thirty provincial police which last night raided United Mine Workers' headquarters at Glace Bay and the homes and rooms of the executive officers of District 26.

Aniline Works at Ludwigshafen Are Occupied By French

Berlin, May 15.—The French have occupied the Baden Aniline and Soda Works at Ludwigshafen, according to a message received here to-day. The employees have not attempted to enter the works, which are shut down, with an entire French regiment quartered there.

The street railway at Ludwigshafen has ceased operation as the result of French occupation of the depot.

CITY'S BUDGET IS DOWN BELOW LEVEL OF 1922

Drastic Economy Cut Expenses \$56,433; Plan to Avoid Shortage

Rate Higher But Owners Will Pay Less Into Treasury Than Last Year

Drastic economies in various departments have cut this year's city budget \$56,433 below the budget of 1922, although the present budget is the first in which the City Council has really faced its financial situation squarely for years. This became known to-day after the Council had completed its estimates yesterday afternoon, adding \$2,000 to the total and fixing the gross estimated expenditure for this year at \$2,465,558.08, as against a total of \$2,521,991.15 last year.

The tax rate this year, based on the present budget, will be 29.72 mills for land and one-third of building value as against a rate of 22.06 mills last year. The rate has been increased not as a result of increased expenditure but on account of sweeping reductions in land and building values. It was explained at the City Hall to-day. Actually the people of Victoria will pay less money in violation of the act may incur penalties including confiscation of lands and goods, arrest and outlawry.

Assessments Cut.
For that reason the new tax rate, which is nearly twenty-five per cent higher than the 1922 rate, does not involve the increase indicated on the surface. As land assessments all over the city have been altered it is impossible to state just how the new rate will affect the land and building owner in dollars and cents. In some cases owners will pay actually less taxes than last year, and in others where assessments have been raised, the payment will be higher.

Reduction of the budget this year was accomplished only by the most rigorous economy on the face of big increases that had to be met. Under the Leeming "pay-as-you-go" policy every expenditure which the city intends to make is collected in the budget and only money which is likely to be collected is considered as revenue. In the past large sums of money which no one expected to collect were counted as revenue and big shortages as a result occurred at the end of each year.

Last year about \$250,000 in delinquent taxes was carried as revenue. Only a small portion of this sum was collected. This year delinquent taxes are not carried in the budget as revenue. Any money that is collected from this source will help to make up the shortage that is bound to occur because of the impossibility of collecting 100 per cent. of the general taxes. In this way the Council hopes to avoid any shortage this year.

Council members agreed to-day that the present budget is the most scientific that the city has had for many years as it squarely faces the situation.

Chief economies effected by the Council this year are in the works department. Estimates for public works were cut \$75,000 below last year's figure. Educational costs were reduced \$21,000 and various cuts were made in other city departments.

EARTH SHOCKS FELT IN ROME, BUT NO DAMAGE DONE

Rome, May 15.—Three earth shocks, accompanied by rumblings, were felt in Rome to-day. No damage has been reported.

SWEDISH OPERA SINGER DISAPPEARS IN NEW YORK

New York, May 15.—The unexpected disappearance of Lydia Lindgren, the Swedish nightingale of Grand Opera, who was valued at \$14,000 when last seen, was reported to the police to-day by her husband, Paul Quirze, an operatic tenor.

DR. J. A. MACDONALD FUNERAL THURSDAY

Toronto, May 15.—The funeral of the late Dr. J. A. Macdonald, former editor of The Toronto Globe, who died here yesterday, will be held on Thursday.

GERMANY MAY AGREE INTERNATIONAL GROUP REPARATIONS SUM

Growing Inclination In Political Circles to Induce Cuno to Send Brief Note to Allies Accepting That As Only Promising Way Out of Present Difficulty.

Berlin, May 15.—The Allied replies to the reparations offer of May 2 have engendered in official and Reichstag circles a belief that the only path now open to Germany may well be the dispatch of a brief formal note to the creditor powers suggesting that the Reich unreservedly consents to permit a commission of international economists to determine her obligations.

Such a solution of the diplomatic deadlock, it is argued, would afford the Entente statesmen an opportunity to indicate their approval or opposition to a plan aiming at ultimate settlement of the reparations question, based not only on economic principles but on Germany's capacity to pay. Germany, as well as the Entente, should be represented on such a commission, it is said.

Although this suggestion was incorporated in the Reich's recent offer, it was buried in the body of the note.

Those Government officials who have informally discussed the exchange of notes see no possibility that a new German offer could be made which would not likewise be rejected on the grounds of its flexibility.

Talk of a Government crisis is dismissed as inviting a needless complication of an already gravely aggravated international situation. There seems to be no Reichstag group which would willingly assume the legacy Chancellor Cuno would leave behind him. United Socialists, of all the parties, least aspire to Government honors in the present situation, especially in view of the Allies' rejection of a reparations offer, which in no small extent was inspired and supported by this group.

There has been no indication that Chancellor Cuno has forfeited parliamentary support.

Brief Note.
There is an inclination in political quarters to induce Chancellor Cuno to address the Reichstag to-day to the Allies setting forth that Germany would conditionally accept the findings of an authoritative commission for the fixation of guarantees and the terms of the necessary loans. The invitation would also discuss the question of securities in so far as they concern reparations adjustments.

MR. BONAR LAW RETURNS TO LONDON

Unexpected Developments Over O'Brien Habeas Corpus Proceedings

Deported Persons Being Moved Back to England

London, May 15.—Reports that Premier Bonar Law is returning to London from Switzerland to-day gave rise to the suggestion that he has curtailed his holiday in response to the position in which the Government finds itself in regard to the Art O'Brien habeas corpus proceedings. According to the Opposition politicians and press, the situation is extremely serious and they treat it much like a ministerial crisis.

The Cabinet met last night. The Ministers seem to have been particularly concerned with measures to protect Home Secretary Sir Douglas Hogg and Viscount Novar, Secretary for Scotland, in allowing the prisoners to be sent to Ireland. There is an insistent demand for the resignation of these officials. It is said Secretary Bridgeman has already offered to step down, but that his colleagues refuse to consider his resignation.

No Indemnity Bill.
It has been supposed the Government would introduce an indemnity bill to protect the officials responsible for the March deportations.

It is now understood the Government has decided to defer introduction of the bill.

Political wagers in the Opposition press say the Government will be sternly called to account for the delinquencies of Secretary Bridgeman, Attorney-General Sir Douglas Hogg, and Viscount Novar, Secretary for Scotland, in allowing the prisoners to be sent to Ireland. There is an insistent demand for the resignation of these officials. It is said Secretary Bridgeman has already offered to step down, but that his colleagues refuse to consider his resignation.

Back to England.
London, May 15.—As the result of the House of Lords' decision in the case of Arthur O'Brien, the British Government to-day is requesting the Irish Free State Government to return to England all the prisoners deported to Ireland, Home Secretary Bridgeman announced in the House of Commons to-day.

The British Government, the Secretary stated, was considering the question of proceeding on criminal charges against certain of the persons interned, but subject to such proceedings the prisoners would be released on their return to England.

Leader Killed; Band Captured.
Dublin, May 15.—The last band of republicans operating in County Wicklow was captured this morning after a fierce engagement. The leader, named Pikelet, was shot dead. Two machine guns were taken.

SIX PERSONS KILLED IN PLANE CRASH IN FRANCE
Paris, May 15.—Reports from County to-day tended to confirm that the woman killed in the aeroplane crash at Montereau yesterday was Miss Juanita Bates of Ithaca, N. Y. The woman, who was traveling alone, was her age as thirty-two.

The cause of the accident, which resulted in the deaths of six persons including Miss Bates, Laurence, a son of Post-Schwab of New York, has not been determined. One generally accepted theory is that a new gully blade of the plane broke.

INDIAN LENGTHENS OUT PROSECUTION STILL HOLDING FORTH IN DUNCAN CASE

In the case against Simon John at the assizes the evidence this morning was confined altogether to Indian witnesses, with the exception of the photographer, F. A. Monk, who identified pictures taken by him of the scene of the alleged crime. Most of the Indians testified through an interpreter.

Edward August lives on the Somers reserve near the White Bridge. He said he saw Simon John the night of February 8 but could not say what time. Witness was sitting beside the stove in his house after supper when Simon John came to the door. Witness gave Simon a salmon which he put in the rig and went away. Simon did not stay any time, but said he wanted to get to the dance.

Maggie August, wife of Edward August, confirmed his testimony regarding the visit of Simon John. She said she saw Simon John in English, which he speaks well. He was at the dance at Fat Johnny's that night. The city clock was striking seven when he came to the railway track with James Johnny. He saw no rigs on the road. He did not see Simon John at the dance.

James Johnny gave testimony, confirming that of the previous witness. The only person he saw on the road was Peter Jack.

Peter Jack said he was at Fat Johnny's dance on the night of February 8. He left the reserve at seven o'clock. He saw Williams and Jimmy on the road, but not others.

At this stage the court was faced with the problem wherein the prosecution wished to call two Indian boys, each ten years of age, to give evidence for the Crown. Though at first they displayed a nervousness in the solemn surroundings, both boys proved to be intelligent witnesses and their evidence was taken with less delay than occurs with most adult witnesses. W. A. Brethour, for the defence, did not oppose the admission of juveniles to the witness-box; it was his hope that their evidence would be taken, he said. On this basis the evidence was put in.

Lewis Henry, the first lad, said on the night in question he attended the dance. In cycling there with the other boy Johnny Wood he had seen the accused driving in a rig on the road. The boys had passed the rig and been overtaken by it several times. He was certain as to the time of the meetings, but it was dark. Johnny Wood took the box. At this stage the court adjourned until 2:30 this afternoon.

(Continued on page 1.)

KIWANIS HOLD WEEKLY LUNCHEON

Kenneth Ferguson occupied the chair and expressed his pleasure at being with the club again, at the Kiwanis Club luncheon to-day.

Luke Fairer, of Port Angeles, was introduced, and spoke a few words. He is the man in the proper quarters, and expects it will be satisfactorily adjusted.

A sole was contributed by Thomas Keilway. It was so well received that he sang again, and the president extended him the thanks of the club.

ANTI-VIVISECTION BOARD TALKS ON VACCINATION ISSUE

Considerable business was transacted at the board meeting of the local Anti-vivisection Society which was presided over by T. J. Boyden.

Matters under discussion included letters and articles regarding insulin and its results; the Albany, N. Y., bill to prohibit experiments on children without consent of parents; and the progress of the new society in Melbourne, Australia, which has ten times the number of members with which it started.

A letter was read from Sir Robert Falconer, of Toronto, replying to one sent to him by the local Anti-vivisection Society in refutation of statements reported to have been made by him in The Toronto Star, April 7. A letter was also forwarded to Col. J. A. Currie congratulating him on the stand he had taken with regard to the proposed grant of \$10,000 to the Social Hygiene Council.

The question of the proposed general vaccination at the suggestion of the City Health Officer received considerable attention, the society deciding to take every means to enlighten the public as to scientific views on vaccination. Regret was expressed by members that any stigma should be placed on the city, which was free from smallpox, it was stated.

The following ladies were elected to the W. A. of the society: Mrs. E. Crane, Mrs. O. C. Bass, Mrs. Bonavia, Mrs. L. J. Seymour, Mme. Vivenot, Miss J. Jones, the Misses Wilson. Grateful thanks were also tendered to all those who had assisted in making the rummage sale and dance for the society's funds so successful.

COST OF LIVING IS TARIFF INFLUENCE

(Continued from page 1.)

both, America needs Canada, and Canada needs the United States. During the year 1922 nearly forty per cent. of Canada's exports went to the United States, and more than 65 per cent. of her imports came from the United States. Canada can well absorb more American goods, and the United States can offer Canada a much greater market for certain of her products.

Thus far, the reception of the Canadian offer in this country has been rather cold. Our farmers see in the plan another blow at their interests. Agricultural prices would be reduced, they allege, while manufactured goods would remain high. But the farmers will talk with you.

The Times refers to the increase in the tariff on potatoes imported into Canada from the United States. "In retaliation for the tariff on Canadian potatoes," and says this perhaps merely accentuated the absurdity of tariff wars.

PHYSICIANS' PERIOD OF TRAINING IS TOO LONG, SAYS LEADER

Kingsdon, Ont., May 15.—Dr. J. C. Connell, Dean of the Medical Faculty of Queen's University, who will shortly complete twenty years of eminent service to Queen's University, states in his annual report that seven years is too long for medical training.

"Seven years added to at least four years of high school work is a long period of training for a professional life which may be spent in a country village, a frontier town or a prairie settlement," he says.

"Medical education in Canada has suffered from lack of co-operation between the medical schools. It is now proposed to organize a medical section of the University Conference to meet once a year, and if this is done successfully it will have an excellent effect upon all the schools."

REGISTERED MAIL COAXED SUMMONS DESCRIBES DEATH AND RESURRECTION DUE TO ADRENALIN

Mother of Sixteen Returns From Shadow After Ten Day's Unconsciousness
Felt Grim Reaper Pulling Her Down; Could Find Nothing to Hold To

Omaha, Neb., May 15.—A graphic account of how he feels to die and then awaken again in the flesh and blood instead of the spirit world, was given to-day by a woman, restored to health by the use of Adrenalin.

Mrs. Rafaela Mercurio, 58, was restored to life after entering the shadows of death by use of Adrenalin, injected into her heart by Dr. W. A. Gerrie, when the physician had given her up as dead.

Her body was purple. She gave no outward signs of breathing or heart action. Prayers for the dead were in progress in her bed chamber.

She had resigned herself to death, resolving to be "beautiful" and become confused and puzzled upon regaining consciousness when the powerful gland extract started her heart to beat again and sent blood pulsing through her arteries.

Mrs. Mercurio is the mother of sixteen children. She has ten grandchildren.

"I could feel death pulling me," she said. "I was slipping. I tried to find something to hold to, but I could not. I felt far away and alone, yet it seemed there was something I must do before I slipped entirely away."

"Yes, yes, that was it. I had just a few minutes. I must straighten out in bed. I must cross my hands on my breast. I must smile. My children must know that I died in peace."

"Once I saw a woman who died while suffering much pain. She was all curled up. It was a terrible sight. I did not want to appear that way to my children. So I straightened myself, settled on my back and folded my hands, prepared for the end."

"From far away there seemed to be people about me. But their voices grew more distant. I knew I wanted to die. It was the last thing I remember."

For ten days after the first injection of Adrenalin, April 12, Mrs. Mercurio was in a semi-conscious condition. She mumbled unintelligible words at times and often lapsed into a state of coma.

"During that time I felt like a chunk of wood," the patient said.

"My son, who nursed me at night, accidentally burned my body twice. I felt no pain. Once he placed an iron at my feet. He did not realize it was too hot until removing it he found a blister. He put a bottle placed on my stomach scorched the flesh. But I was 'like a chunk of wood' and felt nothing."

Full consciousness was restored to Mrs. Mercurio at four o'clock Tuesday morning, April 24.

"I will never forget that hour," she declared with a happy shrug of the shoulders.

"It was the first time I had noticed the clock. It struck four. Until then I had forgotten all about time. But somehow that old clock made me realize I was a real human being in a real world."

"It was almost a shock to me and a very delightful one."

Mrs. Mercurio glanced affectionately at her frolicking great-grandchildren on the floor.

"It is good to be alive," she murmured contentedly.

FINES PROPOSED

Toronto, May 15.—That parents should be fined for allowing children of tender years to stray in the streets was the recommendation of a jury yesterday which investigated the death of a colored boy, Cyril Fredricks, fatally injured by a truck on May 7.

TO SPEED UP LEGISLATION

Ottawa, May 14.—The House of Commons will sit on Wednesday night of this week instead of starting Wednesday night sittings next week. Premier King stated that, so far as the Government was concerned, it was not proposed to sit on Saturdays during this month.

FIRPO SIGNS TO FIGHT WILLARD EARLY IN JULY

New York, May 15.—Luis Firpo, of Argentina and Jess Willard, former world's heavyweight champion, to-day signed articles to box in a match to be held in the vicinity of New York not later than July 7, according to an announcement by Tex Rickard, promoter. The winner of this contest will be matched against Jack Dempsey for the world's title.

PRECEDENT FOR REMARKABLE RECOVERY FROM DRUG HABIT

Before His Honor Judge Lampman in the County Court to-day D. S. Tait appeared on behalf of George Coffin, recently sentenced to eighteen months in jail and a fine of \$1,000, charged with an infraction of the Opium and Narcotics Drug Act.

The accused was arrested by the Royal Canadian Mounted Police, following the finding of morphine and cocaine on premises at 810 Pandorf Avenue.

Mr. Tait asks leave to extend time for entrance of an appeal from the conviction of George Coffin. In support of his application Mr. Tait presented an affidavit signed by Helen Coffin, wife of the accused. Mrs. Coffin testified in the affidavit she bought morphine and cocaine from a Chinaman who was curing herself of chronic asthma. After the conviction of her husband she placed herself under the care of medical authorities at the Vancouver General Hospital. On April 27 last she was discharged as cured of the drug addiction.

"I would like to draw your honor's attention to the affidavit," stated Seant Jones of the Mounted Police. "It seems a very rapid cure," remarked the Court.

"It is impossible," thought the Mounted Police Officer.

"I would not say that," remarked the court, "we have been having some very quick cures here recently. For instance, as I understand it, newspapers, kidneys were made to grow 'while you wait.'"

"Ah, but that was at the meetings held by Dr. Price," supplied Seant Jones.

"Well, Mrs. Coffin was attended by Dr. Brydson Jack," supplied Mr. Tait. After some discussion on the application to extend leave to appeal, the Court adjourned the hearing until to-morrow.

NATURAL HISTORY CONCLUDES INDOOR SESSIONS FOR SEASON

The concluding meeting of the Spring session of the Natural History Society of B. C. was held last evening in the King's Daughters' Rooms, the president, W. N. Kelly, being in the chair. After the usual business was transacted several specimens of interest were shown. One was exceptionally fine, namely a trillium with nine petals, picked by Mrs. Irving, of Cook Street, and sent to the Society for examination.

J. R. Anderson pronounced it as an attempt to merge three flowers into one, a freak to be precise, and one that he had not observed before in this particular plant. A perfect specimen of natural branch grafting was also shown in the form of a letter x. Where the branches had united at the centre and formed a perfect union. This specimen was the maple. A piece of clay from an nine-foot deep excavation in Richardson Street was also shown with the shells of cockles imbedded in it. The shells were very friable but in perfect preservation.

Mr. Sherwood then gave the Society an address on the "Loss of life to birds at lighthouses during migration." This is following up locally the movement inaugurated by the Royal Society for the protection of birds in England. A great deal of valuable information has been gathered and the Society hopes to have it published at an early date.

The large attendance of members and visitors was evidence of the increasing interest in Natural History. Arrangements are in hand for several field meetings during the Summer season.

Mrs. Cassidy has received a warm letter of thanks from the medical superintendent of the Provincial Jubilee Hospital for the gift of a chair to the women's tubercular ward, purchased with the proceeds of the sale of wild flowers in the streets. Mrs. Cassidy has also raised, through the sale of flowers, money with which to purchase a supply of ice cream for the tubercular ward of the hospital, the Protestant Orphans' Home and the Children's Aid Home on May 24.

OBITUARY RECORD

The funeral of the late William Warburton, late son of Mr. and Mrs. A. R. Pike, has been arranged to take place on Wednesday afternoon. Service will be held at the Thomson Funeral Home, 1625 Quadra Street, at 2:30 o'clock when the Rev. William Stevenson, of the Emmanuel Baptist Church, will officiate. The remains will be laid to rest in the family plot at Ross Bay Cemetery.

ELIXIR OF LIFE DISCOVERED IN SHEEP GLANDS

Adrenalin, Powerful Astrigent, Routing Death, Has Stood Years Unrecognized

New York, May 15.—A cheap, colorless solution that has had its place on the physicians' shelf for some years suddenly has been put to miraculous uses, making the heart beat when the pulse of life had seemed to flicker out. With the restoration of several newborn babies whose lives seemed ended almost before they began, the possibilities of Adrenalin are only beginning to be gauged. It is likely to be called into use extensively from now on. But it is not a remedy for the unskilled to handle.

Adrenalin is the most powerful astrigent known and its use must be prompt and sure. It can be bought by any one in the drug store for as little as \$1 an ounce, but the physicians who have used it effectively feel that the unskilled should let it alone. The competent physician must make a lightning judgment on when and how to use it. So little is known about its possibilities that there is ample room for experiment.

A case was reported when three injections were required to restore life in the dead baby born to Mrs. James Miller, of Belmar, N. J. Each time the heart beat for a few minutes and then gave out. The third injection was a strong one of 160 milligrams, and this time the infant heart took up its work and the baby is now quite normal. The preceding case was that of the Sherwin baby brought to life in the Brownsville and East New York Hospital, Brooklyn, with the prompt application of Adrenalin by Dr. J. A. Taperson.

A few weeks earlier Dr. Philip Mininberg, of the Park Maternity Hospital, Brooklyn, reported the first success of this kind recorded, when he succeeded in bringing one of the Isaacson twins to life. In Detroit a baby was restored for six hours by the same means, but in this instance the heart beat for a few minutes and then gave out. All the physicians involved are of the opinion that before long Adrenalin will be widely used for this purpose.

It was a bold move to apply it in the first place, but the whole operation has to be quick and fearless. Adrenalin is technically described as "an astrigent principle of the suprarenal gland used as a hemostatic and a heart and vaso-motor stimulant." The extract is usually taken from the adrenal or suprarenal glands of the sheep, most potent of the ductless glands.

The astrigent action of the solution makes the muscle cells contract rapidly. They remain in this condition for several minutes while the tiny capillaries are squeezed and any blood that may be in them is driven out. The contraction prevents any more from entering. The absence of blood permits the surgeon to see exactly what he is doing as he performs the operation.

Adrenalin has another potent quality, discovered by Dr. Charles E. de M. Sajous, of Philadelphia. The most important substance in the blood corpuscles is known as hemoglobin, which changes from blue to red as the corpuscles are laden alternately with carbon dioxide or with oxygen. Laden with oxygen, the hemoglobin is called oxy-hemoglobin. Adrenalin supplies the substance which enables hemoglobin to be converted into oxy-hemoglobin in the lungs. It is life-giving in this respect.

The Isaacson twins were born before their time. They were very tiny, but the girl breathed without assistance. After a gasp or two respiration stopped in the little boy. His heart apparently ceased to beat. In the ordinary course of events he would be pronounced dead. But Dr. Mininberg took his hypodermic syringe, but a few milligrams of the fluid in the needle, stabbed the point through the infant's chest wall and between two ribs, then straight into the heart itself, where he injected the fluid into the surrounding muscles. It was a bold stroke, but it worked. It penetrated the coronary artery, contracting the muscular cells until the artery was squeezed and forced to send the blood, together with the Adrenalin, circulating through the heart. Coming into contact with the fibres of the heart, the Adrenalin made them all contract. The minute quantity of the precious extract that flowed through the heart was sufficient to give the hemoglobin in the red corpuscles power to absorb oxygen. The oxygen already in the lungs turned the substance into oxy-hemoglobin and thus the entire body was furnished with all the oxygen it needed.

Dr. Mininberg had the baby briskly massaged after this so as to prevent the contraction from becoming permanent. With a pulmotor and a tank of oxygen, he kept the lungs contracting and expanding while he supplied them with more oxygen than they normally drew in from the air. The baby's blood pressure rose so high that while the pulmotor was still being operated half an ounce of blood was drawn from his veins and the pressure on his heart was relieved. In an hour's time the child's heart was beating normally and its respiration was completely restored. One of the chief risks in using Adrenalin is that the blood pressure will be raised too high.

EXPLAINS STATUS OF ST. ANN'S PROPERTY

City Solicitor H. S. Pringle has completed an investigation into the status of five acres of the land owned by St. Ann's Academy and previously exempt from city taxation. This land, Mr. Pringle says, is now liable to taxation as a result of legislation passed in 1919.

Years ago, Mr. Pringle explained to-day, five acres of the estate owned by the Sisters was declared exempt from city taxation. By a revision of the Municipal Act in 1919, however, this exemption was withdrawn, so that the property is now taxable. In the last ten years the Sisters have paid more than \$25,000 in taxes into the City Treasury. There is no intention on the part of the Academy to resist the taxation of the property previously exempted from taxation, the Sister Superior of the institution said to The Times.

The Man Who Signs Must Make Good!

A responsible man puts his name to a piece of paper and it becomes a check—the equivalent of money.

He signs his name on the back of another piece of paper and it becomes an endorsed note—good for money.

He writes a letter and it becomes a binding contract.

The adding of the name makes these things solemn and legal obligations.

The man who signs is responsible.

Just so with an advertisement—the moment a man signs his name to it he has made a pledge to the public.

He is bound by his word as much as if he signed a check or a note. He must do what he promised on the terms he promised.

If he does not, he courts business disaster. The man who advertises a lie publicly proclaims himself a liar. Such men are seldom in business but frequently in asylums.

It is safer to buy advertised articles than nonadvertised ones. It is safer to deal with merchants who advertise than with those who do not.

An advertisement is a signed pledge of good faith to the public.

Write the Bureau of Advertising, American Newspaper Publishers Association, 906 World Building, New York, for a copy of its book, "Today in the Newspapers."

Mustard aids digestion

NEAR EAST RELIEF WORK DISCUSSED

Britain Replies to U. S. Suggestion for Permanent Solution

Washington, May 15.—Great Britain alone of the Allied Powers has replied to the American suggestion of April 2 last for concerted action to bring about a permanent solution of the relief problem in the Near East.

The American note announced the intention of the American Red Cross to terminate by June 3 the relief work undertaken by it in Greece after the fall of Smyrna and the Near East Relief to carry on its activities among adult refugees in Turkish territory at the earliest possible moment.

The British, it was said to-day at the State Department, expressed willingness to participate in any sound plan for permanent relief measures, but advanced no suggestion as to the form such measures might take. The British viewpoint was understood to be that no practical means of training for the absorption of the refugees "into the normal economic life" of the countries where they now are being cared for was possible at this time.

MANITOBA PREMIER FOR PROHIBITION

Winnipeg, May 15.—Premier John Bracken threw in his lot with the prohibition forces at a public meeting here last night when he announced that, speaking for himself and not for the Government or the Agrarian party, he hoped the present Manitoba Temperance law would be maintained.

He personally was opposed to an extension of the liquor business, he stated, and was opposed to it on economic as well as moral grounds. Speaking for the Government, he asserted that if that should not be the will of the people on June 22, when a referendum on the Moderation League's Bill is taken, the Government would endeavor to carry out administration of the Liquor Control Act as well as it possibly could.

"Like me say," the Premier declared, "that we do not feel that the people of Manitoba will be conferring upon the Province any good service or upon the Government any favor in June if they ask us to go into the liquor business."

Other speakers were R. F. McWilliams, John Macgregor, and Tom Richardson, Vancouver, formerly a member of the British House of Commons.

NEW METHODIST PENSION FUND

Toronto, May 15.—A pension fund protecting all Methodist ministers, their widows and orphans, guaranteed by an endowment fund of \$2,322,585, earning at the rate of 6½ per cent. by annual assessments of \$15,000—40¢ per preacher—and \$277,000 on the circuits, plus a portion of the profits of the Methodist publishing interests, is being reported to the annual conference by Rev. J. R. Simpson, secretary-treasurer of the Superannuation Fund.

QUESTION ABOUT GRAND JURIES

Ottawa, May 15.—Right Hon. Arthur Meighen, asked in the House of Commons yesterday afternoon whether it was the intention of the Government to introduce legislation abolishing grand juries.

Premier King stated he would draw the question to the attention of the Minister of Justice, who was not in his seat.

"Has the Government yet passed an Order-in-Council bringing into effect the extension of last year's Wheat Board Bill?" Mr. Meighen asked.

"Yes," replied Premier King.

SEVEN YEARS OF TORTURE

Headaches and Indigestion Ended by "Fruit-a-tives"

The Marvellous Fruit Medicine

Like thousands and thousands of other sufferers, Mr. Albert Varner, of Buckingham, P. Q., tried many remedies and went to doctors and specialists; but nothing did him any good.

Finally a friend advised him to try "Fruit-a-tives"—now he is well. As he says in a letter:

"For seven years, I suffered terribly from Headaches and Indigestion. I had belching gas, bitter stuff would come up in my mouth, often vomiting, and was terribly constipated. I took Fruit-a-tives and this grand fruit medicine made me well."

50¢ a box, 6 for \$2.50, trial size 25¢. At dealers or sent by Fruit-a-tives Limited, Ottawa, Ont. (Advt.)

CHURCH UNION IS OPPOSED

Ottawa, May 15.—"Church union is wrong in principle, in that it is false to facts of history, and secondly, even if it were right, the method of carrying it out is false to every principle of liberty the world has ever known," declared Dr. Cyrus McGilland, Professor of English Literature at McGill University, during an attack here last night on organic union as advocated by the General Assembly of the Presbyterian Church.

Dr. W. D. Tait, professor of physiology at McGill, and F. H. Chrysler, of Ottawa, also spoke. The meeting was under the auspices of the Presbyterian Association and Women's League.

Mr. Chrysler asserted that the action of the General Assembly in 1916 in voting to unite the Presbyterian, Congregational and Methodist Churches was "wholly illegal."

Dr. McGilland said the General Assembly had taken a "moss green mandate" eight years old, and had tried to force it on Presbyterians. It was a menace to civilization and false to the facts of history. Having failed to persuade people in twenty-five years, when the church union movement was started, they were now trying to coerce the church, "substituting for the shepherd's crook the big stick."

Dr. W. D. Tait said unionism was a "retrograde step." The great failure of church union, he declared, was the statement that greater spiritual power would result from it.

COST OF CANADA'S RHINE ARMY WAS ABOVE \$7,000,000

Ottawa, May 14.—The Canadian army of occupation on the Rhine cost Canada \$7,360,956, according to an estimate made by the Overseas Ministry. This information was given by Joseph Archambault, Liberal Member of Parliament, in the House yesterday afternoon.

"Did Germany or Canada pay this cost?" asked Mr. Archambault.

"At a conference of Prime Ministers and representatives of the United Kingdom, the Dominion and India, it was decided that the sums received from Germany was decided upon. Canada's share amounted to \$6,414,000," replied Hon. E. M. Macdonald, acting Minister of Militia.

"Is the Government aware that the American forces on the Rhine did not cost the United States a penny?" asked Mr. Archambault.

"The Government has no information," was the reply.

BUDGET REFORMED PROGRESSIVES' PLAN

Move for Tariff Reduction and Increased British Preference

Forke Declares Attitude; Sir H. Drayton States Views

Ottawa, May 15.—(Canadian Press)—The Progressive amendment to the budget, introduced in the Commons yesterday afternoon by Robert Forke and seconded by J. F. Johnston, member for Last Mountain, Sask., reads as follows:

"Whereas the tariff policy of the Government, as indicated by the Minister of Finance in his budget speech, and particularly his pronouncement in favor of tariff stability at existing rates, and the consequent intimation that the Government contemplates no further appreciable tariff reductions constitutes a repudiation of the tariff plank in the Liberal platform of 1919, and is inconsistent with the Finance Minister's statement last session that the changes were a step in the right direction:

"And, whereas, the fiscal policy of the Government as now brought down is based on the principle of stability in this respect is indistinguishable from that of their predecessors in office;

"And, whereas, the condition of the primary industries and the position of consumers in general are such as to demand immediate relief:

"Therefore, be it resolved: That while recognizing that changes in the fiscal policy should be made in such a way as to give industries affected a reasonable opportunity for readjustment, this House is of the opinion that the principle of protection as a basis for fiscal policy in Canada is unsound; that every claim for protection should be heard publicly before a special committee of Parliament;

Tariff Reduction.

"And further, that the best interests of Canada will be served by: (a) An immediate and substantial reduction in the tariff, particularly on the necessities of life and the implements of production.

"(b) An immediate increase in the British preference to fifty per cent. of the duty on raw materials.

"(c) Reciprocity in trade with the United States as outlined in the proposed reciprocity agreement of 1911. To Make Up Loss.

"And, further, that the loss of revenue if any, which might result from the reduction of customs duties, should be made good by: (a) The readjustment and extension of the income tax to bear more heavily on unearned incomes.

"(b) The increase and extension of excise and other taxes on luxuries.

Drayton's Views.

The first speaker of the afternoon was Sir Henry Drayton, who was Finance Minister in the Meighen Government. He said it was difficult to reduce the tariff, but that a low tariff budget, as it contained some increases and some new duties as high as 2½ per cent. It could be called a tariff for revenue budget, since a sugar revenue of \$2,500,000 had been surrendered, though the Finance Minister had not related to the price of sugar. It could not be called a free trade budget either.

Silk Duty.

Sir Henry criticized the duty on artificial silk. If artificial silk was to be helped, he urged, why not natural silk? Did the Canadian people want to get artificial things instead of the real thing? He asked, or was it because the artificial was cheap and the natural expensive? Artificial silk was largely the only kind that the poorer people could buy.

Sir Henry said Mr. Fielding had again yielded to importunities in dealing with the sales tax. Under the previous Government, the sales tax was small enough to be absorbed in overhead expenses of retailers, but this Government had increased it so that the jobbers had passed it on to the consumer.

Sir Henry would have liked to have seen cheques up to \$500 exempted from taxation rather than cheques over \$2,500, because any person who could write the latter surely belonged to the luxury class.

The Minister, Sir Henry said, had lost \$1,200,000 on the cigarette tax and would not get it back.

Reciprocity.

Touching on reciprocity, Sir Henry said he did not know exactly what was operating in the Minister's mind. He was entirely opposed to it, knowing the Minister's great ability that he had absolutely no faith in his proposition.

Mr. Fielding knew, said Sir Henry, that was not a person who was made merely for the purpose of pleasing the Progressives. There was no belief at present that anything could be done. Americans were men of business and much more concerned in trade than in piously and beautifully worded resolutions on our statute books. The French Treaty to trade was to have something to trade with.

Sir Henry congratulated the Government on granting a bounty on copper, stating his only regret was that it had not gone farther in this direction. He also approved of the bounty on hemp.

NATIVES SUFFER FROM INFLUENZA

Several Die in Western Alaska, U. S. Cutter Haida Reports

St. Paul, Pribilof Islands, May 12.—(Delayed)—An epidemic of influenza exists among natives on the Western end of the Alaska Peninsula, officers of the United States coastguard cutter Haida reported to-day upon the arrival of the vessel here in the course of her annual patrol of Bering Sea. Eight natives died at King Cove, Sannak Island, and at Belkofsky, on the Peninsula, but the epidemic there was arrested and better conditions prevailed.

At Morzhovo, on the western end of the peninsula, practically the entire native village was suffering from the disease, and there had been five deaths. The food supply was low. The Haida put ashore food, medicine and coffins, and members of the crew assisted in burying the dead. A medical officer was left at the village to care for those ill.

On May 10 the Haida responded to a distress call from the Libby, McNeil & Libby cannery steamer, Sea Juan, which had grounded in an exposed position near Dutch Harbor. The vessel was towed to Cape Murchison, to pick up a number of men reported stranded there through the failure of a sulphur company. They will be taken to False Pass, where they will be employed at a cannery.

It is said, for a prominent member across the aisle, declared Sir Henry.

Forke's Views.

Robert Forke, Progressive leader, who followed Sir Henry Drayton said Mr. Fielding's budget was "simply a matter of standing pat."

The debt of the Dominion, he said, had increased more than \$2,000,000,000 since 1914 and the time was not yet in sight when receipts and expenditure would balance. There must be a stop to additions to the debt or bankruptcy would come some day. In Federal, provincial and municipal taxes \$9,000,000,000 a year. Britain had cut her expenditures and reduced her taxes. Canada had increased both taxes and expenditures. It was true the railways could be blamed for the deficit but these had not been much evidence of economy in the last year. As an instance of the manner in which expenditure was increasing, Mr. Forke stated that the number of employees in the civil service in Ottawa in 1912 was 8,311 and the salaries \$19,271,985. The cost of government had grown out of all proportion to the increase in the population.

Deal With Changes.

After stating that the machinery of distribution was much too complicated and its cost almost out of proportion to the service given, Mr. Forke went on to deal with the budget changes. He expressed pleasure at the slight reduction in the duties and the increase in the British preference. "I am anxious," he said, "that we should give Great Britain every preference we can."

Great Britain was Canada's best market. In the shipment of cattle to that market, it had developed that the freight was kept up by the fact that there were few or no return cargoes. If British exports to Canada were encouraged, it would help to reduce the freight rates on Canada's exports to Britain.

Opposes Protection.

"I am unalterably opposed to the principle of protection," declared Mr. Forke amid Progressive cheers. The principle was bad and its results were bad. It made possible combines, trusts and mergers. In a small market like Canada, it was difficult to organize a combine. He agreed that some combines were good for both producers and consumers; but where the power existed, it was human nature to take the last cent out of the consumer. What was needed was a policy that could encourage the basic industries.

"The Liberal promises of 1919" had become almost a hackneyed phrase, Mr. Forke declared. He was most disappointed with Mr. Fielding's reference to "finality and stability of the tariff." In the recent by-election in Moose Jaw the Liberal convention had voted to adhere to the 1919 Liberal tariff platform. The outcome of that by-election had been the election of a Progressive. That was the handwriting on the wall for the Government. There had been too many promises without fulfillment, he declared.

Says Prairies Disappointed.

The West was disappointed in the budget. People were leaving Canada and manufacturers. It was stated, and was made merely for the purpose of pleasing the Progressives. There was no belief at present that anything could be done. Americans were men of business and much more concerned in trade than in piously and beautifully worded resolutions on our statute books. The French Treaty to trade was to have something to trade with.

Sir Henry congratulated the Government on granting a bounty on copper, stating his only regret was that it had not gone farther in this direction. He also approved of the bounty on hemp.

Reciprocity.

Touching on reciprocity, Sir Henry said he did not know exactly what was operating in the Minister's mind. He was entirely opposed to it, knowing the Minister's great ability that he had absolutely no faith in his proposition.

Interesting Values

For Wednesday Morning Shoppers

These "Half-Day" specials offer unusual values here to-morrow morning. Early morning shopping is advisable as in some cases quantities are limited.

Cream Knitted Wool Sports Skirts

Very Special Value at \$4.75

A special selling of Cream Wool Knitted Sports Skirts—very remarkable value at \$4.75. An ideal skirt for tennis, golf, boating, etc. Made with elastic waist band. Wednesday morning \$4.75

French "Mona Lisa" Veils, 25c

Fine Quality French "Mona Lisa" Veils, in black, navy and brown; a neat fitting and excellent wearing veil. Wednesday morning special at 25c

Brassieres to Sell at 75c

10 Dozen Plain and Embroidered Trimmed Brassieres, front and back-fastening styles; sizes 32 to 40; well made and perfect fitting. Special at 75c

Women's All-Pure-Linen Hand-Embroidered Initial Handkerchiefs

A noteworthy offering of Women's all pure Linen and Hand-Embroidered Initial Handkerchiefs; splendid quality and exceptional value at 3 for \$1.00

All-over Aprons Special at 89c

3 Dozen Good Quality Print Aprons in the popular all-over bungalow style; light and dark colors to choose from splendid value at 89c

10 Dozen Cotton Lisle Bloomers

Women's Fine Mercerized Cotton Lisle Bloomers, in black, white and pink; made with reinforced gusset and elastic at waist and knees. Wednesday morning, per pair 59c

Odd Lines and Broken Sizes of Chamoisette Gloves, 69c a Pair

Clearing odd lines and broken sizes of Kayser Chamoisette Gloves, in white and natural only; sizes 5½, 6, 6½, 7½ and 8; 2-dome clasp and greatly reduced to clear Wednesday morning, pair 69c

Fancy Striped Fibre Silk Hose

Women's Fancy Striped Fibre Silk Hose, in black, white, navy, suede and brown, with reinforced lisle tops and soles. A good bargain at, pair 98c

40,000 CANADIAN RAILWAY WORKERS MAKE DEMANDS

Montreal, May 15.—The Railway Association of Canada has received sixty days' notification from 40,000 maintenance of way employees on railways within the association asking that the question of wages and working conditions be re-opened. The application gives no intimation what alterations the men seek. The Workers' delegates are gathering here to formulate the programme which will be submitted and from them it appears that the instructions given them are to urge a return to the 1920 schedule with a minimum of 48½ cents an hour. The minimum now for beginners is 25 cents an hour.

RELEASED FROM JAIL

Vancouver, May 15.—Claude Butcher, of Victoria, was released on an order of Mr. Justice Murphy from Okalla Jail, where he was committed nearly two months ago for contempt of court following his trip to the United States with a woman two years ago while under a prohibitory court order.

"There Were Many Things Which I Could Not Eat"

Mrs. H. Robert Wells, English Harbour, Trinity Bay, Nfld., writes:

"I was troubled with nervous dyspepsia—so much so that there were a great many things I could not eat at all on account of the distressed feeling afterwards. I used many different remedies, but they did me little good. Finally I tried Dr. Chase's Nerve Food and Kidney-Liver Pills, and was surprised at the relief this combined treatment gave me in such a short time."

To France, Belgium, Greece, etc. \$10.00 per month

AN EXCELLENT PROGRAMME.

In the programme of business which the Chamber of Commerce has set itself to develop there is plenty of opportunity for its own members to work and for the public as a whole to support by practical co-operation in a general way. If even half of the ten important objectives can be attained within the current business year of the Chamber very considerable progress indeed will have been made.

Of primary interest to the people of this neighborhood is the development of trade with the communities on the East and West Coasts of the Island. The direct service from Victoria to points on the East Coast and parts of the Mainland should very materially assist in the expansion of business that has been restricted through lack of direct connection. And brisker business with the West Coast—an especial commercial preserve of our own—should have a beneficial effect upon that section with which Victoria will now become more actively associated.

Every possible influence should be brought to bear on the Government of the Province in behalf of the early completion of the trans-provincial highway. Whether the Southern or the Northern route shall be selected—a point that engineering knowledge will determine—it follows that the expenditure that would have to be made in this connection would be money well invested. For as soon as it shall be possible for the automobile tourist—and he is now a highly important international "industry"—to cross British Columbia by direct road the public treasury will very soon get its money back with interest.

The Chamber very wisely recognizes the importance of golf in the life of this and practically every other community on this continent. There is no limit to the number of its devotees. A municipal course in Victoria should pay as well as similar undertakings are paying on both sides of the line.

A GREAT EDITOR.

The death of Dr. J. A. Macdonald, former editor-in-chief of The Toronto Globe, removes a striking figure from the field of Canadian journalism. He was an unusually gifted man who not only was one of the ablest writers on the press of this country, but also had few peers as an orator. In both capacities he earned a national reputation, his vigorous, convincing style, his remarkable command of language and his outstanding personality making him a dominant factor in any company, and at one time it was freely predicted that he eventually would succeed Sir Wilfrid Laurier in the leadership of the Liberal Party. He began his early manhood as a Presbyterian clergyman, subsequently taking up church journalism and becoming editor of The Presbyterian. He went to The Globe as editor in 1902 and served in that capacity with marked success until his breakdown in health five or six years ago. He was a big man of his time and a great Canadian.

NOT REALLY IMPORTANT.

British Labor went into Trafalgar Square on Sunday afternoon, as it has done on many Sunday afternoons during the last thirty years, with flags flying. The promoters of the demonstration selected a number of "no more war" banners, and others bearing complimentary references to the country ruled by Lenin and Trotsky, to impart a touch of color to the mass of humanity—half of which is there on serious bent and the other half out of sheer curiosity.

Everybody in Britain would wave the "no more war" flag without hesitation and back Labor, any section of it, in reasonable efforts to prevent it. There would not be such an enthusiastic response to the exhortation implied by the banner bearing the inscription "Full recognition of the Russian Republic."

It is worth noting, however, that the demonstration was not held under the auspices of the Labor Party. It is similarly significant that none of the more prominent leaders or Labor members of Parliament were in attendance. Which would seem to suggest that neither Mr. Macdonald nor any of his more influential associates in the House of Commons intend to comfort Russia as long as she wilfully shuts herself out of decent society.

THE LATE MR. NASH.

Many a visitor to the Parliament Buildings has cause to remember the genial smile and kindly attention with which the late Mr. H. H. Nash greeted all who passed the portal over which he stood guard for thirteen years. It was never any trouble for this highly-respected public servant to see that the stranger, within the legislative pile missed nothing of interest. Many days in the summer months he was known to have repeated his pilgrimage through the building several times; but at the close of the day, when he could well have been pardoned for dodging the oft-repeated recital, the late arrival might have thought that this genial cicerone had actually waited and prepared for this one special tour. This task he performed year after year and the thousands of visitors who have crossed the threshold of the Parliament Buildings will learn with intense regret that the genial soul who contributed to the enjoyment of their visit to this city has gone to his long rest. The Times joins in the expressions of sympathy that will go out to the sorrowing relatives.

SIXTEEN-YEAR-OLD SMOKE SCREEN?

Most people will realize that a successful politician should be equipped with a fairly good memory. Cabinet Ministers and legislators do not always prefer to remember everything; but it is mighty handy to have a check on things when the occasion demands. We are wondering therefore why a number of Conservatives in this Province believe the freight rates issue is something new—a "smoke screen" for misdeeds of which Mr. Bowser and his associates and followers consider the Oliver Government has been guilty.

If Mr. Bowser and Mr. Stevens, or any other reasonably curious individuals, care to take the trouble to look at the journals of the local Legislature for the session of 1907 they will find the following resolution standing in the name of the present Premier:

Whereas by section 11 of the Terms of Union the Government of the Dominion undertook to secure the seaboard of British Columbia with the railway system of Canada;

And whereas large areas of public lands belonging to the Province of British Columbia have been conveyed to the Dominion Government in furtherance of the said railway;

And whereas the benefits to be derived from the construction of the said railway was one of the inducements which led to the Union of British Columbia with the other Provinces of Canada, as well as for the conveyance to the Dominion Government of the public lands of the Province as aforesaid;

And whereas the railway above referred to is national in its character, and as such has received a very large measure of assistance of public moneys and lands;

And whereas it was not contemplated at the time of the Union of British Columbia with the other Provinces of Canada that there should be any discrimination in freight and passenger rates between one locality and other localities, or between one Province and another Province;

And whereas numerous complaints have from time to time been made by various Boards of Trade in British Columbia, to the effect that existing freight rates discriminate against cities in British Columbia;

And whereas the Board of Railway Commissioners have ordered a reduction of passenger rates to three cents per mile upon all railways between Calgary and the Atlantic;

And whereas the passenger rates charged upon railways in British Columbia is in excess of three cents per mile;

Therefore, that a cheap rate from the Province be presented to His Honor the Lieutenant-Governor, praying that he will cause a full representation of the facts to be made to the Government of the Dominion and to the Board of Railway Commissioners, so that the end, that British Columbia may be placed in as favorable condition in respect to freight and passenger rates as are other portions of the Dominion.

This motion was approved by the House. Mr. Bowser was no doubt present at the time. Mr. Stevens was in the Province and ought to recall it. Or have both these gentlemen forgotten all about it in their haste to mix political mud? In any case the records of the Legislature will have to be respected.

NOTE AND COMMENT

Russia's reply to Great Britain is couched in conciliatory phrases. That is just what might have been expected. The Soviet Government has done some silly and mean things; but it recognizes the folly of seriously offending Great Britain.

Some members of the Ministerial Association of Vancouver do not appear to like the methods of Dr. Price. We presume they are not sufficiently orthodox. There is nothing very new in this. Some two thousand years ago the founder of Christianity was first put in jail and then executed because he was too unorthodox.

Some of the Chinese bandits want to hold their captives for money; others are ready to drop the demand for a ransom if they can be taken on as regular soldiers without reprisals; but the most certain thing about the whole business is that the unfortunates are still in the clutches of the outlaws.

Every day or so some scientist makes the discovery that this or that eatable or drinkable is a menace to the health of the individual. Soap and face powder were given out recently as harboring all sorts of death-dealing properties. Some time ago tea was pilloried as the handmaiden of cancer. But those who smoke may take heart at the findings of Dr. E. P. Roger—a British investigator. He declares that under certain conditions tobacco may be even good for health.

France will find comfort in the British and Italian notes to Germany. In both cases the debtor nation is politely informed that it should have known better than offer such a sum as thirty billion gold marks in settlement of reparations claims. Lord Curzon also drops the hint to the German Government that Great Britain will, at a suitable moment, be ready to take part by the side of her Allies, "with whom she shares a practical interest in this question, which she has no intention to abandon," in any discussion calculated to terminate a situation of international peril. In other words Germany's hope of disturbing the Entente has once more gone aglimmering. The sum total of the "rupture" is a separate note from Britain that merely supports the view taken by France without waiting.

OUR CONTEMPORARIES

THE WEAK POINT.

The Englishman (Calcutta)—The weakness of democracy as a political force is its liability to fall a victim to meaningless catchwords. Western people, however, more educated, and above all better trained, and experienced, are immune from this weakness in comparison with Indian politicians.

SOB FOR VICTIMS.

Chicago Tribune—Police Commissioner Enright of New York asks the public to stop sobbing for the criminal and sob for the victim. It's a request which has to be made about every time there is a crime bad enough to get the public's interest. The victim is remembered until the criminal is caught. Then the criminal becomes the centre of sympathetic interest, as if he or she were innocent and in great jeopardy. This sentimentalism may be incurably distorted, but it must be attacked as often as it is revealed if the number of victims is to be decreased.

Other People's Views

Letters addressed to the Editor and intended for publication must be short and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the writer wishes. The publication or rejection of articles is a matter entirely in the discretion of the Editor. Responsibility is assumed by the paper for MSS. submitted to the Editor.

ESQUIMALT BY-ELECTION.

To the Editor:—I see that Mr. Brooker, if elected, says he will work with the reeve and council as a whole.

Goodness knows we have vacancies aplenty on public bodies, some noisy, some dumb. What is wanted at the present time is men who have the courage of their convictions, and who are not afraid to get up and speak them. Men of the rubber stamp variety are worse than useless in public life.

OBSERVER.

May 14, 1923.

NEEDS CLEANING.

To the Editor:—Can you inform me if the Historical Society of Victoria is still in existence. My reason for enquiring is there is a brass plate at the corner of Bastion and Government Streets, bearing their name, which is in such a cloudy condition that the inscription thereon is almost illegible. We will have many visitors during the May carnival, so might I suggest that the tablet would be greatly improved by a vigorous application of

BON AML.

[Ed.—The Historical Society of B. C. is in existence.]

WORK FOR BOYS.

To the Editor:—Thinking the following, if put into operation, would be of considerable benefit to our boys, both from a financial and a health standpoint, I would appreciate it if you could give it publicity.

Any boys who would like to go back to the prairies to work on farms or who have friends there to go to, and who would like to work during their Summer holidays, please let me know their names, ages and the Province they wish to go to. If I can get enough I think we might be able to get a cheap rate from the railways. There is a shortage of help now and they might be able to put in July, August, and perhaps September.

Kindly forward names as soon as possible.
A. E. HOLE,
612 Harbinger Avenue, Victoria,
May 10, 1923.

RE TENDERS FOR CITY CONTRACTS

To the Editor:—The promoters of the Dr. Shortt Inquiry and Report, amongst other salutary recommendations made to the Council, advised all City work possible be done by contract to private enterprise, and the enormous cost of the bridge and other City work.

The Council have made a feeble response by asking for tenders for a fraction of the remaining necessary work on the bridge, (why not for all of the work) under conditions of payment and reward, entirely hostile to a favorable result.

(1) In December last the City was notified by the General Contractors and Builders' Association of British Columbia, of a resolution passed by the Association, protesting against tendering in competition with municipal engineers, properly so, for the following reasons:

(a) The engineer does not comply with the conditions imposed on contractors.

(b) Does not deposit 10 per cent. with his tender.

(c) Does not furnish a guarantee bond for 25 per cent. of his tender, that he will carry out the work and a further guarantee that he will maintain it in good order for five years.

(d) The engineer appears in the specification as the sole arbiter of the work on a cost from specification, himself having the power to perform the work in any old way, probably charges nothing for the use of many of the facilities at his command, which cost the City a great deal of money, maybe nothing for profit necessary to meet contingencies, such as taxes, licenses, workmen's compensation, wear and tear of plant, or such as a scowload of material being tied up over a pile which punches a hole in her bottom when the tide goes out, and wastes several thousand in material and repairs, perhaps no one to check him up, and if they do, it makes no difference, the City pays.

What sort of a business proposition is this for the ratepayers, or contractors?

What is the result of this condition? Only one tender in competition with the engineer, on the same class of work, and this from a Vancouver firm, which it is proposed to accept, not one tender from a local contractor, knowing the conditions and having some respect, with one accord their refusal to tender, though the work is of the simplest kind.

Has the business morale of the City sunk so low that no one, knowing it wants to have anything to do with it, or is this the aftermath of the treatment of the Coughlan Company tender on bridge work recently? Notwithstanding the adverse conditions what does this lone tender demonstrate? A positive saving of \$8,312, based on the excess cost of the bridge (about \$9 per cent. over the engineer's original estimate), a probable saving of over \$37,000 on a piece of work having a guaranteed tender to cost only \$52,558, if the figures furnished by the public by the press are correct.

Has the City no esprit de corps, or what is the matter with it? A Royal Commission would diagnose it.

JOHN DEAN.

May 3, 1923.

VACCINATION.

To the Editor:—The local M. H. O. suggests that Victorians should get vaccinated at once because there is smallpox in Vancouver. His integrity of purpose and his sincerity no one will doubt, but when he tells us this is not a time for argument but for action, we demur. He says if everyone will get vaccinated now there will be no epidemic. How does he know this? We have yet to be convinced that vaccination makes us immune to smallpox. No long as our surroundings are healthy and sanitary, we need not fear an epidemic; if they are not, no vaccination is likely to help us.

There are, as is probably well known, three classes of smallpox: (1) malignant, which is almost invariably fatal; (2) confluent, which

The Brunswick

The design and cabinet work of the Brunswick Phonograph make it an enduring delight to the eye, just as its musical efficiency make it a delight to the ear. With a Brunswick in your home you can play—and play correctly—all the world's recorded music. At the same time the cabinet is one in which you will feel justifiable pride.

KENT'S PHONOGRAPH STORE

1004 Govt. St. Phone 3449

is about 25 per cent. fatal; (3) discrete, which is seldom or never fatal, unless the constitution is rendered weak from vaccination. The two worse classes only flourish in seriously unsanitary conditions and in degenerate constitutions, and one class of smallpox never turns to another. Under certain conditions, however, vaccinated or unvaccinated persons might be liable to contract disease, except that the unvaccinated would have the best chance of escape.

I do not believe in frightening people about disease, but it should be pointed out by the advocates of vaccination that the after results may be as dangerous, or more dangerous than the smallpox itself, which not only kills but often lays the foundation of cancer, syphilis, tuberculosis, erysipelas, eczema and many other diseases. The proper treatment of ordinary smallpox is no more to be feared than the results of vaccination, and certainly no one need ever be taken to the hospital by the attendant and the nurse!

The Registrar General's returns for fifteen years preceding 1920 show that in England there were 78 deaths from smallpox in unvaccinated persons and 384 deaths from vaccination itself. Which is preferable, the disease or "preventive"? The M. H. O. says smallpox is often mistaken for chickenpox. Chickenpox has also been mistaken for smallpox, which is no more to be feared than the results of vaccination, and certainly no one need ever be taken to the hospital by the attendant and the nurse!

Last year Victorians had the great good fortune to have in their midst one of the greatest living authorities on the question of vaccination. The people who were now going to surrender their freedom because of a possible smallpox epidemic in Victoria. The M. H. O. has, however, relieved his conscience by giving us a fair warning.

PERTINAX.

Victoria, B.C., May 14.

THE EXCEPTION

Most men agree that cleanliness is next to godliness, unless you include housecleaning.—Milwaukee Journal.

CONSIDER PLANS FOR COMING YEAR

Board of Directors of Chamber of Commerce Have Heavy Programme

The Victoria Chamber of Commerce has set itself an objective outlined in a programme for the year, which, if attained, will add greatly to the many advantages already possessed by the Island. There were several projects discussed yesterday at the meeting of the board of directors of the Chamber, and the following are matters which will take up the time of the organization during the year:

Objectives

The various projects suggested, and which will be discussed in greater detail at future meetings, were:

1. Construction of a logging railroad and wagon road to connect Victoria with the San Juan Valley and the West Coast of the Island.

2. Completion of the Canadian Highway by constructing the Hope-Princeton link.

3. Encouragement of a Government scheme of wholesale land clearing to bring under cultivation large tracts of land in the Sooke, Metshan and other nearby districts for the use of settlers.

4. Provision of a ferry service between Mill Bay, Patricia Bay and Salt Spring Island, so as to develop trade between Victoria and the Islands of the Georgian Archipelago.

5. Establishment of a grain elevator at Ogden Point.

6. Organization of a harbor commission for the manufacture of fertilizer from fish offal would be of benefit to British Columbia.

Extension of the British preference would be of benefit to all Canadians.

Wheat Route.

Mr. Stork referred to the shipment of Canadian wheat via Pacific ports to the Orient. More of the wheat had been shipped, Mr. Stork stated, should be shipped over the Canadian National Railway and through Prince Rupert instead of over the Canadian Pacific Railway and through Vancouver.

The building of grain facilities at that port would bring about an important reduction in freight rates on grain from many sections of the West when en route to the Orient, he said.

The reciprocity pronouncement of Mr. Fielding was of importance to the fishermen of British Columbia.

The present duty on Canadian fish entering the United States was slowly exterminating the British Columbia halibut fishery industry.

J. Pritchard spoke.

John Pritchard, Progressive, North Wellington, Ontario, held that "if we looked at the result of the protective policy, as shown by conditions today, we must come to the conclusion that there is something wrong with it."

The policy of past Governments, he said, appeared to be to build up the towns and cities at the expense of the country. My policy is to look after the agriculture in an agricultural country and then you will build up the towns and cities," said Mr. Pritchard.

He protested that the country was contributing toward the cost of uni-

versity training for men who, when they graduated, crossed the line and became an asset to the United States.

J. S. Woodsworth's View.

J. S. Woodsworth, Labor, Centre Winnipeg, submitted that the most vital question before Canadians today was an adequate administration of the country's natural resources. He suggested the time had arrived when some radical adjustment of the whole economic system was needed.

Canada, continued Mr. Woodsworth, was running a vast administrative machine. It would almost seem as if it took all the steam it could generate in order to keep the machine going, with the result that there was no power left to pull the load. What with Dominion provincial and municipal governments, with the large system of departments attached to each, Canada's comparatively small population was beginning to find the load too heavy and was getting out from under it.

Mr. Woodsworth said he had obtained from the Dominion Bureau of Statistics an approximate estimate of the value of Canada's developed resources and the machinery, etc., used in this development. This amounted to \$1,215,205,439.

The gross annual total production of Canada was approximately \$5,167,997,000, so with a capital of \$17,000,000,000, Canada produced annually about \$5,000,000,000.

The net debt of Canada was \$2,422,125,801 on March 31, 1922. The per capita debt on direct provincial liabilities was \$119.74, and on municipal liabilities \$184.77. When these were added to the per capita public debt of \$275.60, it made a total of \$490.11 for every man, woman and child in the country. Canada had vast resources. It was well equipped; its people were hard working and intelligent; and yet for some mysterious reason it had this debt and equipment and dissatisfaction prevailed," he said.

Mr. Woodsworth continued that so far as Labor was concerned, Socialism was its gospel, just as free trade was the gospel of another portion of the people. He described the budget changes as being made in the interest of those who were well off rather than in the interest of those possessed of small means, and advocated a capital levy to pay the national debt.

L. P. Bancroft, Progressive, Selkirk, Manitoba, quoted amendments introduced by the Liberals while in opposition in an effort to show that the present Government, before taking office had created a low tariff sentiment in the country apparently for the sake only of gaining office.

"What's the matter with you?" asked Hugh, as he encountered his friend Alfred.

"I proposed to Geraldine, and she refused me," replied the other.

"What ever for?" said his friend.

"I was unlucky. The first question she asked was if I had any prospects."

"Well, didn't you tell her about your rich uncle?"

"No, I said, hang it all! Geraldine's my aunt now!"

The policy of past Governments, he said, appeared to be to build up the towns and cities at the expense of the country. My policy is to look after the agriculture in an agricultural country and then you will build up the towns and cities," said Mr. Pritchard.

He protested that the country was contributing toward the cost of uni-

versity training for men who, when they graduated, crossed the line and became an asset to the United States.

J. S. Woodsworth's View.

J. S. Woodsworth, Labor, Centre Winnipeg, submitted that the most vital question before Canadians today was an adequate administration of the country's natural resources. He suggested the time had arrived when some radical adjustment of the whole economic system was needed.

Canada, continued Mr. Woodsworth, was running a vast administrative machine. It would almost seem as if it took all the steam it could generate in order to keep the machine going, with the result that there was no power left to pull the load. What with Dominion provincial and municipal governments, with the large system of departments attached to each, Canada's comparatively small population was beginning to find the load too heavy and was getting out from under it.

Mr. Woodsworth said he had obtained from the Dominion Bureau of Statistics an approximate estimate of the value of Canada's developed resources and the machinery, etc., used in this development. This amounted to \$1,215,205,439.

The gross annual total production of Canada was approximately \$5,167,997,000, so with a capital of \$17,000,000,000, Canada produced annually about \$5,000,000,000.

The net debt of Canada was \$2,422,125,801 on March 31, 1922. The per capita debt on direct provincial liabilities was \$119.74, and on municipal liabilities \$184.77. When these were added to the per capita public debt of \$275.60, it made a total of \$490.11 for every man, woman and child in the country. Canada had vast resources. It was well equipped; its people were hard working and intelligent; and yet for some mysterious reason it had this debt and equipment and dissatisfaction prevailed," he said.

Mr. Woodsworth continued that so far as Labor was concerned, Socialism was its gospel, just as free trade was the gospel of another portion of the people. He described the budget changes as being made in the interest of those who were well off rather than in the interest of those possessed of small means, and advocated a capital levy to pay the national debt.

L. P. Bancroft, Progressive, Selkirk, Manitoba, quoted amendments introduced by the Liberals while in opposition in an effort to show that the present Government, before taking office had created a low tariff sentiment in the country apparently for the sake only of gaining office.

"What's the matter with you?" asked Hugh, as he encountered his friend Alfred.

"I proposed to Geraldine, and she refused me," replied the other.

"What ever for?" said his friend.

"I was unlucky. The first question she asked was if I had any prospects."

"Well, didn't you tell her about your rich uncle?"

"No, I said, hang it all! Geraldine's my aunt now!"

ROYAL YEAST CAKES

As a health builder, Royal Yeast is gaining in popularity every day. It is a food—not a medicine. It supplies the vitamins which the diet may lack. Royal Yeast is highly beneficial in cases where the system seems "run down". Royal Yeast is the richest known source of vitamins, and when taken into the system acts as a corrective agent. Royal Yeast Cakes are recommended for their purity and wholesomeness. It is the purest, the most convenient and economical yeast on the market.

Two to four Royal Yeast Cakes a day will work wonders. A full day's supply can easily be prepared at one time by using one glass lukewarm water and teaspoon sugar to each yeast cake. Allow to stand overnight in moderately warm room. In the morning stir well and pour off liquid. Place in refrigerator or other cool place and drink at intervals as desired throughout the day.

Send name and address for free booklet "Royal Yeast Cakes for Better Health."

WOMEN OBJECT TO DETAILED REPORTS OF CRIMINAL CASES

Local Council Opposed to the Press Remaining When Court Is Cleared

Objection to detailed press reports of criminal court proceedings when the case is of such a nature as to cause the presiding Judge to clear the court of the public, was made at yesterday's meeting of the Local Council of Women. The matter was brought to the attention of the meeting by Dr. Irene Barstow Hudson, convener of the social hygiene committee, who moved that all court cases of the kind should be heard in private with the press excluded. She took this stand on the ground that it was inconsistent to exclude the public from such cases and then allow the press to remain and publish the evidence in detail, as was done in a recent case. The Council will take steps to convert the authorities and the newspapers at their point of view.

Animal Performance
The Council decided to support any action the S. P. C. A. may deem fit in connection with the performance of trained animals on May 24 in connection with the Maytime Frolic. This step was taken following the receipt of a letter from Miss Dora Kitto upon the subject.

Home Products
Mrs. Savery gave an interesting report as convener of agriculture, in which she urged the support of home industries and home products. She asked the women to co-operate in making Vancouver Island renowned for its potatoes in the same way that Devonshire was renowned for its cider. Yorkshire for its pork pies, and Yarmouth for its blonkers. Another suggestion embodied in her report was that the women should make a point of "boosting" local strawberries by refusing to buy their early products from the South, thus helping the Saanich district to become famous for its berries.

Mrs. J. D. Gordon reported on the Provincial Council meeting. Mrs. Galbraith announced that there was a balance of \$49.41 from the recent rummage sale.

SOCIAL AND PERSONAL

Mrs. M. J. O'Connor, of Winnipeg, is registered at the Empress Hotel.

Dr. Robert E. McKee, of Vancouver, is a guest at the Empress Hotel.

For the week-end, Miss Vivian Combe has her guest, Miss Sylvia Kennington, of Duncan.

Miss Ruth McBride has left for Vancouver on a visit to her sister, Mrs. Marshall Beck.

Mr. Arnold Raymur, of Seattle, is visiting his mother, Mrs. Raymur, Stanley, Avenue.

Vancouver registrations at the Empress Hotel include: Lt. Col. A. Bruce Powley.

Miss O. Heisterman, of Shasta Avenue, is visiting in Vancouver, the guest of her sister, Mrs. Arthur Smith, Second Avenue.

Mrs. R. P. Matheson, of Esquimalt, has returned from Vancouver, where for the past week she was the guest of friends.

Mr. and Mrs. A. H. Locke and daughter are leaving on Thursday to spend a few months' holiday in London, England.

Mr. and Mrs. E. R. Taylor, of 1116 Leonard Street, are receiving congratulations upon the birth of a son this morning.

Miss Katie Gaudin, who has been spending a week's holiday in Seattle as the guest of Mr. and Mrs. Storey, returned home yesterday afternoon.

Mr. E. N. McNaught, of Duncan, was a visitor in town for a few days prior to leaving yesterday for Los Angeles.

Ernest E. Kinney passed a successful examination before Examiner Davis, and has been awarded a mate's coasting certificate.

Mr. Andrew Robertson, Belmont Avenue, left last night for the Cariboo on a forestry survey party for the summer months.

Colonel John S. Tait, of Vancouver, came over to attend the funeral of the late Mr. James Raymur, held yesterday morning.

Miss Winnington-Ingram and Miss Jorle Winnington-Ingram arrived in the city on Saturday from London, England, and left this morning for Banfield on a visit to their father.

At the great flower-show held in New York City last March, one of the most effective exhibits showed a stretch of velvety turf in living green, with formal beds of brilliant bloom on either side, and at the end a background of closely massed evergreens. Its gleaming whiteness made every onlooker outside the ropes want to walk up the gravelled path and seat herself there to look over the beauty of the garden.

Garden furniture has become almost as essential a factor in the suburban or country home as the appropriate furnishings and decorating of the house itself. A convenient seat upon which to drop down and rest after a tour of the flower-lanes is to make an extra inviting room for the family and its guests.

The great danger to most beginning gardeners is to overdo this matter of garden furnishings. Last summer visited a very small garden which was so crowded with "decorative" articles that there was almost no place left for the flowers!

The enthusiastic woman who ordered over it had visited a tempting shop and had recklessly ordered sun dials, bird baths, pottery vases, stone benches, iron cranes, trellises and had indulged in arbors, trellises

and bird-sticks until the whole small enclosure resembled nothing so much as a bird's nest or a selling-place for garden equipment.

Garden furniture is effective only when it is subordinated completely to the trees and the flowers themselves. If it intrudes itself upon the attention, it is in poor taste, no matter how beautiful the individual article may be.

The beautiful seat, placed in a distant secluded spot or amidst a splendid massing of greenery; a bird path hidden in some quiet, shady corner; a little without alarm; a sundial in the midst of a very simple formal garden—these are beautiful and tasteful; but beware the use of artificial water, birds, imitation birds on sticks, and ornate stone vases placed among the blossoms. The simpler the made setting, the better will they show up—and after all, they're the real beauty of the garden.

address, referred with pride to the splendid work of the club, under whose convener's high musical standard of the club concerts had been effectively maintained; to Mrs. Aldous, who had undertaken the work of decorating the platform for professional concerts with artistic success; to Mrs. Hoard, whose efforts were largely instrumental in raising the membership; and to Mrs. J. E. Umbach for her untiring and capable work as treasurer.

Mrs. Hoard, the retiring secretary, stated that the membership now numbered 416, the highest in the history of the club. Nine concerts had been held during the year and three musical teas. She pointed out that the programmes given at these teas had been equal in musical standard and success to those given at the monthly recitals. Votes of thanks were moved to the retiring members of the executive.

Prior to the business of the meeting a delightful musical programme gave much pleasure to the members. Mrs. Jesse Longfield contributed songs, Miss Rita Ormiston pianoforte numbers, and Miss Hall gave violin solos.

"I can remember when to own an automobile was a mark of distinction," "Well," "I was just thinking that nowadays you don't attract any attention unless you own at least three cars,"—Detroit Free Press.

Mrs. Campbell, in her presidential

WOMEN SEEK FOR FULLER OPERATION JUVENILE COURT

Local Council Hears of Procedure From Judge Helen MacGill

That the Juvenile Court if properly conducted and equipped, with a woman magistrate at its head and a probation officers and psychologist on its staff, was an invaluable factor in the well-being of the community and a deterrent agency to juvenile and adult crime, was the assertion made by Mrs. J. H. MacGill, before the Local Council of Women yesterday afternoon. Her enlightening decision to consider a plan for the full operation of the Juvenile Court in Victoria, such plan to be submitted by Mrs. MacGill to the executive.

Social Service Agency.
Mrs. J. H. MacGill stated that the Juvenile Court was a social service agency, working along purely preventive lines. She briefly reviewed the history of juvenile court work, which originated as early as the reign of Atholstan, when laws were passed dealing with child delinquents. The status of children legally advanced but did not come into practical effect until 1859, when the first known juvenile court was established at Cook County, Chicago. This step was taken at the instigation of the women's organizations of that district and was founded on Chancery proceedings.

Prevention First.
"We are not so interested in punishing the offences of delinquent children as in finding the underlying causes and seeking to remove them," explained Mrs. MacGill. Probation did not mean suspended sentence. It was a much broader thing than that.

It was of no use to bring a child into court, give it a lecture and then send it back among the conditions which contributed to its delinquency. Under the probation system the child received the protection of the court while steps were taken to remove the causes of its wrongdoing. Illness or unemployment in the home, subnormal mentality of the child or its parents, detrimental environment, harmful companions—any of these might be factors causing a child's delinquency.

Juvenile courts were established in British Columbia in 1916, in which year the Vancouver Court came into being. Since then the Victoria Court had been established, but the lack of equipment, declared Mrs. MacGill, was a serious handicap in the proper operation of a juvenile court, and the magistrate was as much at a loss as a carpenter would be in the absence of proper and sufficient tools. The probation officer should be a psychologist and psychiatrist. There is no place for sentimentality in these cases. There is place for lots of sympathy and infinite patience," she observed.

Adult Contributors.
She described the penalty against adults contributing to delinquency of children, and touched upon the causes of the criminal Code affecting this. The difficulty of dealing with sub-normal delinquents was reviewed by the speakers, who drew upon her long experience for cases to illustrate her contention that the probation officer should be a psychologist and psychiatrist.

No Place for Sentimentality.
Mrs. MacGill stated that the first step taken in the case of a child brought before the juvenile court was to have psychological and medical tests. This was followed by an investigation into the family history and home environment. There is no place for sentimentality in these cases. There is place for lots of sympathy and infinite patience," she observed.

Referring to the cases of child mothers coming before her court, Mrs. MacGill stated that she did not approve of the practice of allowing these girls to marry merely to legitimate the child. Such a step was all too often tantamount to removing a crown witness against the man and sentencing the girl to a life sentence.

Woman Judge Essential.
The first and greatest need of juvenile court work was the full force to carry out probation work. Mrs. MacGill emphatically avowed her belief that a juvenile court judge should be a woman. There were cases which only a woman could deal with and questions which only a woman should ask. Psychological tests of delinquents were also an essential to the proper conduct of the court to obviate the delinquent going back again into conditions contributory to that delinquency.

Probation System.
"It does not matter how perfect your laws for women and children are. You are not doing your duty unless you insist that they are administered by women or women," continued the speaker. "Industrial schools are a fine institution and those in British Columbia the best of Canada," said Mrs. MacGill, "but I hold that we should not send any child to an industrial school until we have thoroughly tried out probation."

Under the probation system, the child became a ward of the court and remained under that supervision during the period of probation.

In Vancouver there was also a school class run in conjunction with the juvenile court so that children while under observation might not miss their schooling. This class was one part of the city school system and had proved an invaluable feature in the juvenile court work.

At the close of her address a number of questions were presented to the speaker, showing the keen interest of the women.

One member asserted that the recent wave of juvenile crime in Victoria might have been largely obviated had there been a psychologist and probation officer attached to the Juvenile Court.

Laziness is a habit that grows fast and clings close.

MAY QUEENS WILL HAVE BUSY TRIP

Visits to Vancouver, Seattle and Other Points Will Keep Victorians Working

The Victoria May Queens leave here with their glittering retinue tomorrow. Word has been received from Lester Patrick, who is acting in advance of the party of beauty Queens, and who is at present in Seattle, that all is in readiness for the coming of the Victoria belles.

The visiting Victorians will be entertained officially by the Mayors of the different towns and cities where they stop, and are assured of the very finest of treatment.

The following is a schedule of the intended route of the May Queens and their train:

Wednesday, May 16. Leave Victoria 10 a. m. Arrive Duncan 12 noon. Leave Duncan 2 p. m. Arrive Ladysmith 3 p. m.

Thursday, May 17. Leave Ladysmith 4 p. m. Arrive Nanaimo 5 p. m. (Windsor Hotel). Leave Nanaimo 7 a. m. Arrive Vancouver 9:15 a. m. Afternoon trip to Stanley Park, where a reception may be gathered. In the evening some club will give a dance for the Queens.

Friday, May 18. Leave Vancouver 10:30 a. m. Arrive Westminster 12 noon. Lunch, Russell Hotel. Leave New Westminster 2 p. m. Arrive Bellingham 4:30 p. m. Hotel Leopole. Reception during evening. Leave Bellingham 9 a. m. Arrive Everett 1:30 p. m. (Lunch). Arrive Seattle 5 p. m. Reception during evening.

Sunday, May 20. Drive about Seattle from 10 a. m. to 1 p. m. Take

LADIES!

TOMORROW'S
HE DAY

Spencers 10 to 6.

ing in Woodland Park, Washington Boulevard, Volunteer's Park, and others. Lunch. 3:30 p. m. Arrive Tacoma 5 p. m. (Hotel Tacoma). Reception at night.

Monday, May 21. Leave Tacoma 10:30 a. m. Arrive Olympia 12 noon. (Lunch). Leave Olympia 3 p. m. Arrive Seattle 6 p. m.

This night the Queens will be free to do as they please. Tuesday, May 22. Leave Seattle 10:30 a. m. Arrive Everett 12 noon. (Lunch). Leave Everett 2 p. m. Arrive Anacortes 5:30 p. m. Reception in evening.

Leave Anacortes by ferry 2 p. m. Arrive Sidney 5 p. m. Leave for Victoria 5:30 p. m.

The complete schedule planned for the trip of the May Queens will take a week all but one day for completion. They will return to Victoria the evening before the grand celebration here, and be on hand bright and early in the morning at the Navy Yard. Then they will proceed by boat to the float near the Parliament Buildings, and the programme for the day will be followed out as it has been originally planned.

Our Mothers Knew

The makers tell you why our Mothers used Sunlight Soap. It is the best because it is made from the pure oil of the Coconut and Palm.

Coconut Oil gives you that soft easy lather that saves your energy and saves your clothes.

The Palm Oil makes Sunlight firm and hard so that it is the most economical Soap in the world to use.

Sunlight is the purest laundry soap in Canada.

GAME HOGS BANNE FROM COWICHAN

River and Lake Declared
Sportsmen's Preserve by
Government

Luring Fish to Wholesale
Massacre With Medicated
Bait Is Outlawed

Riverside, Lake Cowichan, May 15.—The day of the game hog at Cowichan Lake and in the river is gone. H. Hodgson, head of Riverside Inn, today received official message from the Department of Marine and Fisheries that Cowichan River and Cowichan Lake is to be put in the class of sportsmen's river and to be reserved for sportsmen.

This action by the Government follows a long campaign waged by Mr. Hodgson and other sportsmen to protect the famous Cowichan trout that are in the river and lake.

Game hogs have been coming up and using salmon eggs and medicated bait which sends a powerful scent through the water, bringing the fish from all over.

The climax came last Easter when men came in and with these medicated baits caught trout by the hundreds as fast as they could haul them in. They went away with their motor cars loaded down with the results of their great fish massacre.

While they were using this bait and hauling the fish out in wholesale quantities, refined sportsmen were casting about with rod and fly nearby and laboring in vain.

Some men were so anxious to gather in to themselves all the fish in the river that they had out lines from both sides of their boats, and one man devised the scheme of not only having multiple lines out but having at least two hooks on each line so that if the fish would bite they would be caught up in this dragnet as it was swept through the waters.

From now, according to Government regulations, only worms, fly and spoon will be allowed in Cowichan River or Lake.

The Government fisheries here are putting in the river this season 500,000 more Atlantic salmon fry. This, fishing experts say, will make the Cowichan one of the best sporting rivers in the world.

The fish are now taking to the fly freely, as the river is starting to fall. Among the sportsmen who have been carrying on here and having good luck are H. R. Hammond, A. P. Catelet, Major Seiden, Humphries and J. S. Percy.

CANADIAN NATIONAL PARKS FILMS HERE

Lecturers Will Show Banff-Windermere Pictures in Conjunction With Addresses

The lecture on the Banff-Windermere Highway which will be given this evening by J. C. Campbell at the Chamber of Commerce rooms in the Arcade Building is open to the public. The lectures will be given in conjunction with the showing of the Banff-Windermere picture films of the highway and the Kootenay Park. These, the Chamber of Commerce announced, will be most interesting.

This is the first film that has ever been taken of a highway and park, and the Government is endeavoring to promote interest in these National playgrounds.

A large gathering is expected to attend this meeting. When the speakers were at Friday Harbor they were before a full house. And they received an ovation which proved the fact that they made a great impression of the public.

What the Victoria Chamber of Commerce is endeavoring to do about is an arrangement with the Dominion authorities to film the scenic beauties of Vancouver Island. This plan the speakers of this evening are anxious to proceed by showing the sights of the island. They will recommend to the authorities at Ottawa that the country hereabouts be filmed immediately.

ABRAHAM MARTIN MONUMENT AT QUEBEC UNVEILED

Quebec, May 15.—The Louise Docks were the scene of a unique ceremony which adds to the pages of historical events in connection with the old French and present British province of the city of Quebec. It was the occasion of the unveiling of a monument in memory of the first King's pilot in the navigation of the mighty River St. Lawrence, Abraham Martin, after whom the Plains of Abraham in Quebec are called, and who is referred to in the Jesuit Relations as "l'Ecceh." He was not only the first King's pilot, but also the first Canadian of Scotch descent who received from Samuel de Champlain in 1617, at the time of the settlement of Quebec, a grant of land and cultivated his own farm. Taking an interest, Abraham Martin was appointed the first King's pilot in the river, which for over the past 200 years has been the great waterway into the interior of the American continent.

In view of this historical event, the Canadian Pacific Railway Company decided to erect a column to perpetuate the memory of Abraham Martin. This monument, which was unveiled yesterday, was designed by the French-Canadian sculptor, Henri Hebert, who is connected with the original Louis Hebert, and occupies a position in a plot of ground at the south end of the Louise Docks, in close proximity to the main driveway.

F. L. Wankley, assistant to the president of the Canadian Pacific Railway, representing the president, E. W. Beatty, presided. He opened the ceremonial proceedings with a short speech. French, giving a sketch of the life of Abraham Martin and the interest which had been taken by the Canadian Pacific Railway in this connection leading to the idea of erecting a memorial column in his honor.

OCEAN AND COASTWISE SHIPPING

Fumigate Our Cabins, No! Said Irate Tourists

Admiral Oriental Ship Being
Forced in Effort to Cut
Down Time—Blue Funnel
SS. Tyndareus Will Dock
Here To-morrow From the
Far East

The inbound Admiral Oriental liner President Jefferson, Capt. Francis R. Nichols, will be in port from the Orient to-morrow evening, according to her latest wireless position. At 8 o'clock last night the liner was 840 miles out from Victoria and she can do better than 400 miles a day. Sundown Wednesday night is at 7.45 p. m. standard, which is 8.45 p. m. local time.

By arriving to-morrow the American line will make port one day ahead of her schedule. The passenger ships of the Admiral-Oriental line are now definitely ignoring the golden 17.5 rule, and are speeding up each voyage.

Capt. John Griffith, master of the President Jefferson, reported an average of 19.3 knots on the inward trip from the Far East. The President Jefferson is bringing in a general and silk cargo valued at \$500,000 and carries a large list of cabin and steerage passengers. If the ship succeeds in making quarantine before sundown to-morrow she will berth shortly afterwards at the Ogden Point piers.

Blue Funnel Due.
The Blue Funnel Line steamship Tyndareus, which is making an excellent passage from the Orient, is due to make quarantine here at 1 p. m. to-morrow. The Tyndareus has a valuable Oriental cargo and Asiatics in her steerage quarters.

Jackpot Gets Away.
The liner President Jackson, Capt. John Griffith, left this port last night on her outward voyage to the Far East. Passengers included the following:

Mrs. W. W. Phelps, wife of Rear Admiral Phelps, commander of the American naval patrol on the Yangtze River, returning to Hong Kong, accompanied by her son, Southwick Phelps; Lieut. Com. G. K. Davis, who has been ordered to Manila from Chicago and is accompanied by Mrs. Davis; Mrs. William Brown, of San Francisco, sister of Capt. Robert Dollar, and Mrs. William Barr, who will visit Harold Dollar, who is stationed in China; James S. Higgs, of the Peking Union Medical College.

Ralph P. Crawford, traveling man, who is going to Yokohama on a business trip; Don Thompson, wife and baby, and Miss Anna Heck; George Paschal of Jacksonville, Fla., who is going to Peking as an interpreter for the American legation; Esther May, Mrs. Russell W. Schrappe of Milwaukee, and Miss Josephine Pheatt, Mrs. C. L. Shanks and Mrs. G. H. Shanks of Chicago; Norris Frieder of St. Louis, a tobacco importer, going to Tokyo; Emmett Mohler of Seattle, bound for the Orient on a business trip; Edward Diamond and Miss Catherine Hoffman, of Chicago, returning to their homes.

With the above and George Company of Tokyo; C. R. Camp and wife, returning to Shanghai, and also R. W. Barrett, bound for Manila.

CUNARD S. S. SAMARIA.
San Francisco, May 15.—The Cunard liner Samaria, which arrived here yesterday on the last leg of a cruise around the world, was not permitted to dock because the ship's officers declined to allow the ship to be fumigated. The fumigation is enforced on all vessels from Far Eastern ports before they can dock here. A number of the Samaria's passengers were taken off in launches and barges.

Russia Is Held For
Delayed Travelers

SEAL QUOTA IS
FIXED AT 25,000

Washington, May 15.—The quota of fur seals to be killed on the Pribilof Islands in the calendar year 1923 has been fixed, with the approval of the Secretary of Commerce, at 25,000 3-year-old males, of which 21,000 are to be secured on St. Paul Island and 2,500 on St. George Island. The total quota and the interrelated quotas are subject to adjustment, and may be increased or decreased as deemed desirable during the progress of sealing operations. It is planned that 25,000 of the quota will be taken during the summer sealing season, which ends August 5, leaving 500 for killing in the late fall.

Will Leave Friday, Instead of Thursday, for the Orient—Empress of Canada Gained a Full Day Over President McKinley on Outward Voyage

Awaiting the arrival of delayed passengers from the East, the Canadian Pacific liner Empress of Russia, Capt. A. J. Hosken, R. N. R., scheduled to sail on Thursday, will be twenty hours late in clearing from Vancouver on her return voyage to the Orient. The Empress of Russia, under schedule to leave Vancouver at noon on Thursday, will not get away from the mainland port until 9 a. m. Friday, L. D. Chetham, local C. P. R. passenger agent, was today informed by wire from Capt. Edward Beetham, superintendent of C. P. S. S. Ltd.

The alteration in the schedule means that the outbound Canadian Pacific liner will not reach this port before Friday afternoon and will clear the same evening for Yokohama and Hongkong. The ship is taking out a capacity cargo and a large list of passengers.

Canada's Undisputed Claim.
Operating on schedule the C. P. S. S. liner Empress of Canada, Capt. A. J. Halley, R. N. R., has again demonstrated her right to the claim of "Queen of the Pacific." The Empress of Canada left this port 24 hours behind the Admiral Oriental, which is scheduled to leave for Yokohama yesterday. The Empress of Canada docked about 3 a. m. and the President McKinley at 8 a. m. Thus the Canadian Pacific liner, leaving this side a full day behind the Admiral Oriental ship, made the other side of the Pacific first.

Body Holds Its
First Conference
In Five Years

Montreal, May 15.—Convening for the first time in five years, thirty-five members of the Canadian Pacific Railway joint protective body, Railway Carmen of America, assembled here today for a convention that may last all week. Every divisional point on the Canadian Pacific Railway was represented.

Double-Ender and Driver.
In the passing of Charles Clarke at his Toronto home, the Canadian Pacific lost one of its oldest locomotive engineers. In the pioneer days of Canadian railroads, the late Mr. Clarke used to drive an old wood-burning engine known as a double-ender, and the engine on which he made his first run as engineer on the Canadian Pacific is shown above. He was born in England 76 years ago and started railroading at the age of eighteen with the old Midland line, joining the company from whose service he was retired about twelve years after.

LONGSHOREMEN IN SESSION AT BOSTON

250 Delegates Attend the
Twenty-seventh Annual
Convention

Boston, May 15.—About 250 delegates representing shipping ports in all parts of the United States, as well as Canada and the Canal zone, assembled here yesterday for the 27th annual convention of the International Longshoremen's Association. Addresses of welcome were delivered by Governor Cogswell and Mayor Curley, to which President Dempsey, secretary of the Atlantic Coast district. The first day's meeting was of a formal character, the business sessions opening to-day.

A DOUBTFUL OUTCOME
Milwaukee, May 15.—Sporting writers differed last night in their opinion on the verdict in the ten-round, no-decision boxing bout between Joey Fox, champion featherweight, of England, and Ernie Gooseman, of California. One writer favored Fox another Gooseman and a third called the bout a draw.

The amount of bituminous material used by the State Highway Department of Pennsylvania since 1915 in the surface treatment of macadam roads would fill a steel tank 500 feet in height and 150 feet in diameter. Were a six-inch pipe line installed to transport this material from the tank it would be filled for a distance of 4,300 miles before the tank emptied.

The department since 1915 has applied 24,419,716 gallons of bituminous material. This gallonage is sufficient to float a steamship with a registered displacement of 15,000 tons.

NEWS IN BRIEF

A grant of \$1,000 for the Y. M. C. A. was passed by the City Council yesterday.

The Building Committee of the Lake Hill Community Centre is appealing for volunteer workers to lend assistance on Wednesday and Saturday afternoons of this week.

E. E. Richardson, of Seymour Avenue, brought into the Times office this morning a beautiful spray of dogwood, the blossoms measuring over seven inches across.

The Women's Auxiliary to the Canadian Legion will hold a concert in the McBride ward of the Provincial Jubilee Hospital on Thursday evening at 7.30 to which members are asked to bring refreshments.

Charged on remand in the City Police Court, when W. Ferguson was sentenced to two months in jail, charged with supplying liquor to Emilio Jim, an Indian. The court added hard labor to the sentence.

In order not to conflict with the Maytime Frolic, the Municipal Chapter, I. O. O. E., will hold its monthly meeting on Thursday of this week instead of on May 24. The meeting will commence at 2 p.m. and all members are urged to attend as there will be special business.

Mayor Hayward has accepted the invitation to attend the Retail Merchants' Association get-together dinner at the Dominion Hotel on Friday. The members of the City Council have also been invited. The Attorney-General may also be present if the illness in his family will permit.

Ward Four Liberal Association will hold its final social gathering of the season to-night in the Liberal headquarters, Government Street. Zala's orchestra has been engaged for the occasion, and the committee in charge is sparing no effort to make the affair a successful finale to the season.

The Centennial Methodist Church has leased a plot of land near the church as a recreation centre. Tennis courts have been constructed and preparations made for other games. The new club will be formally opened to-morrow afternoon with a tennis tournament. Tea will be served.

Crossing Fort Street at Broad at 10.30 last night a Gorge Bus was caught by an east bound street car and thrown off its course. The head of the truck slewed around and narrowly escaped crushing a car belonging to Dr. Griffiths, parked at a nearby curb. No one was hurt.

Protest against an exhibition of caged animals to be staged in connection with the Maytime Frolic here was laid before the City Council yesterday by Miss Dora Kitto, secretary of the S. P. C. A. She said that many expressions of disapproval of the exhibition had reached the society. Her letter was referred to the management of the Frolic.

The annual church parade of the Army and Navy Veterans' Association will be held on Sunday, June 3, at the Parliament Buildings, when the memory of those who fell in the wars of the Empire will be revered by special services. The public is invited to join the veterans in the commemoration of the annual day.

A float from the Oak Bay Municipality will be entered in the Victoria Day Parade, it was decided at last night's Council meeting. Reeve Hewlett and Councillors Haynes and Goodlake will look after the matter. Some suggestions was offered the Council, but no decision has been arrived at yet. Any suggestions from the residents will be welcomed by the Council.

Provincial police circles to-day are looking for a half breed who is reported to have escaped from detention at Quasiat Cove, where he was serving a sentence of six months' imprisonment. The police also seek an eighteen-year-old youth of Nanaimo, who is alleged to have driven a motor car to this city on Monday evening, without acquainting his parents of his intended departure.

The election of officers of Victoria Aerie of the Fraternal Order of Eagles for the next term has resulted as follows: President, W. Neill; vice-president, J. Brady; secretary, W. Laine; treasurer, Geo. E. Foster; chaplain, T. Bennett; trustees, Bros. Watson and J. Nickol; aerie physician, Dr. A. D. Bechler; inside guard, J. Knight; outside guard, J. Christenson. The installation of the newly elected officers will be held the first meeting in June.

That bogus twenty-five and fifty cent pieces in circulation in this city was reported to-day. The city police received a report from C. L. Harris stating that he had his attention drawn to a counterfeit coin purporting to be a half dollar. The counterfeit twenty-five cent piece cleverly made is also reported in circulation, one being taken in by a local retailer this week. The latter coin was a perfect replica of the currency, except that its weight was too light.

Victoria Women's Institute—To-night the Victoria Women's Institute will pay its monthly visit to the tuberculosis ward, Jubilee Hospital, when the patients will be entertained with a concert and refreshments. Members are requested to meet at the nurses' home at 7.30. The regular monthly meeting of the institute will be held in the institute rooms on Friday afternoon next at 2.30. Much important business and plans for future work will be brought before the meeting. Further arrangements will also be made in connection with the moonlight cruise to be held under the auspices of the institute on June 27. The hostesses for the day are Mrs. J. S. Adams, Mrs. Baker, Mrs. Dyer and Mrs. Hale.

The second Memorial Service of the Onwego Young Men's Bible Class, First Presbyterian Church, was held on Sunday afternoon at Ross Bay cemetery in memory of the late Leslie Carter. In addition to the class members, a large number of friends assembled at the graveside, where a simple yet beautiful service took place. William Strath gave a brief yet formal address upon the value of a Christian life and its far reaching effects upon

others. Mr. Howell, the class leader, briefly commented upon the event, concluding the service with a brief but appropriate prayer. In addition to a beautiful wreath from the class, every member laid a personal floral tribute.

One of the many interesting social events connected with the three-day Maytime Frolic will be the Maytime dance which the J. B. A. will hold at the Empress Hotel on the evening of May 24, as a wind-up to the day's festivities. The affair will commence at 9.30 and continue until 2 o'clock. An energetic committee, of which Mr. Charlie Wallis is chairman, is attending to the details of the dance, and making supper and musical arrangements. Other members are Messrs. Claude Connacher, R. D. Travis, Ken Adams, Ben McMillan, E. Fisher, Jack Devereaux and J. Riddle.

U. S. SAILORS TO COMPETE IN CITY; RACE ENTRIES DUE

PANTAGES TO RE-OPEN

Next Tuesday, continuing each Wednesday and Thursday thereafter, Pantages Theatre will re-open for business. The circuit shows will come here from Bell-ingham, and proceed on the Friday following to Everett. The result will be that a show closing on Saturday in Vancouver will play Sunday and Monday in Bell-ingham, then come three days here, spend two days in Everett, and proceed to Tacoma for the ensuing week.

SAYS WOULD SAVE FARMER OF WEST TWO MEN'S LABOR

Local Patent Stoker to Be Manufactured for Harvest Fields

Culminating three and a half years of careful work and representing an expenditure of \$20,000, the Caulfield Stoker has now been granted patent rights. The inventor, Norman Howard Caulfield, of 2111 Fernwood Road, is a resident of several years' standing in this city, but his practical knowledge of the grain business, and the most efficient equipment required in the harvest field was obtained on farms in Ontario and Saskatchewan.

Mr. Caulfield told The Times that each binder with an eight foot cut in an average field of grain will keep two men busy doing the stooking, one of the most arduous occupations, as all harvest hands know. He asserted that the patent Stoker performs the task of gathering the sheaves and placing the stook more efficiently than the laborer.

Mr. Caulfield has the sole Canadian rights, which he has transferred to a company known as the Caulfield Stoker Company, Limited, registered under the B. C. Companies Act, and the inventor is a director there of. The registered office is at 215 Central Building, where a life size model will be kept for demonstration purposes.

The promoters believe that the Stoker will fill a want in the harvesting of the great crop of the Canadian West, and that the company will be warranted in the manufacture of a large number of Stokers taking advantage of the invention of the "mountain" construction which, already received the praise of many experts in agricultural machinery.

The secretary of the company is E. C. Mathews, of this city, and associated with Mr. Caulfield are directors are George Walter McIntosh, retired farmer, Arthur M. Davis, mining engineer, both of this city, and Sydney P. Porter, of Colquhoun, B. C.

The company incorporates with a capital of \$250,000, divided in \$10 shares.

MEASURE FROLIC FLOATS

Chief Fry in a warning issued to-day draws the attention of those wishing to enter floats for the Maytime Frolic parade to the measurement of the floats planned. These must be of such a height and width so as not to interfere with trolley wires or other normal street projections. It is pointed out.

AUTO CAMP TO BE OPENED TO-MORROW

Several Short Speeches Will Be Given and Bands Will Attend

The automobile tourists' camp at Curtis Point will be formally opened to-morrow, and the public is cordially invited to attend the ceremony. His Honor the Lieut.-Governor will raise the flag during the afternoon, and President C. T. Cross of the Chamber of Commerce will give a short address. Joseph Patrick, president of the Victoria and Island Publicity Bureau will also speak.

The proceedings will begin at 3 p.m. and several service clubs of the city will be well represented. Mayor Hayward will give a short speech in conclusion, while the band, obtained by the city parks committee and the band committee of the Chamber of Commerce, will be in attendance.

The auto camp is all ready now for use. Firewood is piled up for consumption by the tourists. Water and light are on hand and a caretaker has been put in charge. In fact, the necessities of a modern camping site of this sort are complete and ready to please any tourist.

NATIVE SONS

The Native Sons of Canada, at their meeting on Thursday, will discuss the arrangements for a celebration of Dominion Day. Plans will also be made for the annual assembly convention in Vancouver, commencing July 3.

B.C. BEARS BURDEN FOR BENEFIT OF REST OF CANADA

Sample Excess Rates.

"I have taken just a few cases of commodity rates on goods which, if they move at all, must move eastward from British Columbia, and compared the rates with those in force for an equal distance in Eastern Canada. Quotations given are from Vancouver to Saskatoon, as compared from Windsor, Ontario, to St. John, New Brunswick.

Sugar and Coffee, Excess Rate 87%
Fresh Fruit " " 87%
Tea " " 87%
Rice " " 87%
Canned Goods " " 87%
Lumber " " 87%
Fish " " 109%

"The rate on fish is from St. John, N.B., to Brockville, Ontario. Percentages are approximate as exact distances cannot always be had.

Built Line for Company.

"The C.P.R. contend they are entitled to these excess rates on account of 'mountain' construction which, they maintain, is a 'mountain' operation and 'lack of density of traffic.'

"Our answer to these points is that the Government of Canada built the railway from Port Moody to Kamloops, also from near Fort William to near Winnipeg and in both cases gave it to the Canadian Pacific Railway Co.

Changed Line From Contract.

"Also that the Canadian Pacific Railway Co. contracted with the Dominion Government to build the railway via the Yellowhead Pass, but voluntarily changed the location to the Kicking Horse and Rogers Passes, and had they built as per their contract, they would have had neither mountain construction nor mountain operation.

Heavy Subsidies Given.

"As to density of traffic, we say they have prevented traffic becoming dense in British Columbia by means of excess rates under which traffic could not develop. Witness the fourfold increase in grain moving to the coast since rates were reduced by six cents per hundred pounds as a result of our efforts.

"We say further that the Dominion Government compensated the Canadian Pacific Railway Co. in respect to any and all disadvantages which existed by means of the subsidies they gave. Namely: \$5,000,000 in cash; 35,000,000 acres of picked lands; 35,000,000 in constructed railway and surveys.

"It must not be overlooked that British Columbia was the only Province which as a Province apart from the Dominion contributed either land or money in aid of construction of the Canadian Pacific Railway. It is also of interest to know that B. C. contributed to the Dominion in aid of the Canadian Pacific Railway a main line 14,500,000 acres of land; in aid of the Esquimalt and Nanaimo Railway, 2,110,000 acres; to the B. C. Southern Railway, 3,550,000 acres; to the Columbia and Western Railway, 1,345,000 acres, and to the Kettle Valley Railway over \$1,000,000, these three last being part of the Canadian Pacific Railway system.

Rates Tend to Division.

"The Canadian Pacific Railway was a political railway, but as part of the terms of Confederation, and to serve a national purpose, namely, 'the closer union of the Provinces of Canada,' but the excess rates now for many years past are tending to separate and not unite the Provinces of Canada.

"When Earl Granville in 1859 wrote to the Governor of British Columbia advising that Province to join Confederation, he referred to a British line of communication between the Atlantic and the Pacific Oceans.

B. C. Bears Whole Burden.

"The Dominion Statute of 1872 authorizing the construction of the Canadian Pacific Railway, referred to this railway as 'a work of national importance,' and 'as affording rapid and direct communication through British territory with her Australian and Asiatic possessions.' To-day we have through the medium of the Canadian Pacific Railway Co. a line of communication from Europe across Canada to China, Japan, India, Australia and New Zealand. This line of communication must of

BASEBALL CRICKET TENNIS SPORTING NEWS GOLFING SWIMMING

Automotives To Make Their Bow To-night

C.P.R. Will Test Out Strength of Newcomers in Amateur Baseball League at Stadium—Parfitt Will Twirl for Mechanics and McIntyre for Leaders

Baseball fans will have a chance to see the dark horses of the Amateur League in action this evening when the Automotives and the C. P. R. clash at the Stadium at 6.30 o'clock. It is hoped that by the time of the twilight fixture the weather man will let out the sun to beam on the ball park.

The new mechanics are newcomers in the amateur circuit and are making their break into senior ball but it is reported that they have a fast tribe of ball-tossers lined up and will give the C. P. R. nine a good run.

The mechanics are certain that when the league has finished up for the year that they will be mighty near the top if not holding down the premier position. On Sunday the motor men journeyed over to Friday Harbor and clashed with the crack American team and were only beaten by one run the final score being 7-6.

So if that counts for anything the railroaders will have a hard nut to crack in the battle to-night.

Railroaders Confident
The railway men are confident that they will be able to keep their record unblemished and will leave the field victorious to-night. They have a neat list of players and are a tough proposition for the new team to stack up against.

To-night Ray Parfitt, the star hurler of the mechanics, will be given the job of taming the C. P. R. heavy sluggers. Parfitt is one of the city's best pitchers. Last year he played with the Fernwoods who licked up everything around the city in the form of independent teams which was due mainly to the capable pitching of Parfitt.

Either "Red" McIntyre or Brynjolfsson will be on the mound for the C. P. R., and if the former chucker throws the ball across the white rubber the mechanics are going to have a hard task in front of them to hit his slants. Brynjolfsson is a dark horse and has not been in the Amateur League for some time, but it is claimed that he has some neat little curves to his throws.

The teams will be picked from the following:

C. P. R.—T. Townsend, Prescott, Saunders, R. Copas (captain), Brynjolfsson, Forbes, G. Allan, Jackson, Copas, McIntyre and F. Campbell.

Automotives—P. Dunn, Todd, Wills, B. Ross, H. Gandy, Newman, Parfitt, M. Dunn, Moser, Fetherston, Chester, Redgrave, P. Campbell and C. Campbell.

RECALLS "TEE SHOT" INTO BOSTON HARBOR

American Golfers Received by Prince of Wales; Also Entertained

London, May 15.—The American golfers who were received at St. James's Palace yesterday afternoon by the Prince of Wales, were guests at a dinner given in the House of Commons last night by H. H. Spencer, member for Bradford, and a member also of the committee of the Royal and Ancient Golf Club.

H. H. Asquith welcomed the visitors in a graceful speech. He represented British golf as a tremendous triumph of the spirit of only invasion, but annexation, and in all state of panic at the advance of Oulmet, much as the grandfathers trembled at the name of Bonaparte.

Lloyd George and Sir John Simon also made speeches. Sir John remarking the American independence began with a "tee shot" into Boston Harbor.

Robert A. Gardner, captain of the Walker Cup team, suitably acknowledged the toast.

THREE GAMES IN WEDNESDAY CRICKET LEAGUE

Three cricket games are scheduled for to-morrow in the Wednesday Cricket League. They will be as follows:

Broad Street vs. Spencer's at Beacon Hill.
Hudson's Bay vs. St. Aidan's at the Jubilee Grounds.

Spencer's team will be as follows: Lifton (capt.), Maynard, Knappan, P. Payne, Hellman, Thorne, Bentley, Farrow, Gale, Locke, Davis and Johnson.

JIMMY WILDE ON HIS WAY
Southampton, May 15.—Jimmy Wilde, featherweight champion of the world, has sailed for New York for his championship fight with Pancho Villa at New York on June 16. The winner later is to meet Frankie Genaro, present American titleholder.

INTERNATIONAL CHESS
Carlsbad, May 15.—Much progress was made in the international chessmasters' tournament, when all the games of the eleventh round, as well as two adjourned games from previous rounds, were disposed of.

The point scores of the leaders to date were: Alekhine 7-4, and Teichmann 6-4-4.

Victoria Golf Stars To Play In Sound Match

Phil Taylor, "Big" Wilson, Walt Gravin and W. Brynjolfsson Enter

Victoria will send two golfing pairs to Seattle on May 26 to compete in the pro-amateur best ball tournament at the Rainier Golf and Country Club. Phil Taylor and Bigger Wilson will represent the Victoria Golf Club and Walter Gravin and W. Brynjolfsson will perform for the Uplands Golf Club. The Colwood Golf Club will not be represented owing to the fact that the new professional has not arrived from the Old Country.

Every club of importance in the Northwest except Spokane and Earlinton expects to enter a team, which assures Seattle of a classy field to follow during the competition's debut in Pacific Coast circles.

No more welcome news has been heard by links followers in Seattle this season. Next to playing the game himself the average golfer would rather watch experts execute their shots, and there are scores in Seattle who have been hankering for more than the lone taste of championship golf furnished by the P.N.G.A. tournament.

Three of the holes at the Rainier course—the twelfth, fourteenth and sixteenth—will be lengthened, in each case the tee being set back twenty to thirty yards.

List of Entries
Following is a list of those who are expected to compete:

Rainier Golf and Country Club—Frank Noble and Walter Wand, Bib Pinnell and Pete Ash.

Seattle Golf Club—Bob Johnstone and Bon Stein, Fred Henwood and Lee Steel.

Inglewood Country Club—Al Eslinger and Clark Spaul, Frank Rodia and Jack Westland.

Jefferson Park—Fred X. Fry and Gordon Haw.

Uplands Golf Club—W. Brynjolfsson, H. Gravin and W. F. Brynjolfsson.

Victoria Golf Club—Phil Taylor and Bigger Wilson.

Seattle Golf Club—Bob Johnstone and Bon Stein, Fred Henwood and Lee Steel.

Everett Golf and Country Club—M. J. Jefferson and partner, Frank Minch and W. H. Peabody.

Skagit County Country Club—Dave Craig and C. West.

Bellingham Golf and Country Club—Willie Black and W. H. Abbott.

Yakima Country Club—H. C. Wise and C. M. Holzinger.

Walla Walla Country Club—Jack Renaldi and partner.

Meadow Park Golf Club, Tacoma—David Stuart and partner.

VICTORIA GOLF CLUB

The draw for the Ladies' Handicap Cup competition of the ladies of the Victoria Golf Club has been made.

The first and second rounds must be played by May 26 the third by June 2, the fourth by June 9, and the fifth and final by June 16.

Three-quarters of the difference of handicap will be allowed, and all competitors will drive from the men's tees, except at the eighth, where all shall drive from the men's.

A stroke is to be given to all B Class players at the sixth and sixteenth holes irrespective of handicap.

The first round each drew a bye except Mrs. Heming (30) and Miss Bruce (31).

The draw for the second round follows:

Miss Ker (22) vs. Mrs. B. Wilson (20).
Mrs. Pierce (23) vs. Mrs. Gore (25).
Mrs. Westmorland (24) vs. Miss D. Wilson (23).
Mrs. M. G. Moore (36) vs. Mrs. Seattle (24).
Miss J. Wilson (18) vs. Mrs. A. R. Green (26).
Mrs. Ross (20) vs. Miss Pitts (16).
Mrs. Lennox (22) vs. Mrs. Mellin (36).
Mrs. Heming (30) or Miss Bruce (31) vs. Mrs. Burton (20).
Mrs. Galt (36) vs. Mrs. B. Heisterman (22).
Mrs. Parry (11) vs. Miss Sayward (12).
Mrs. Goward (22) vs. Mrs. Hutchinson (10).
Miss Tuck (21) vs. Mrs. Hunter (36).
Miss Young (21) vs. Mrs. D. Gillespie (21).
Mrs. King (29) vs. Mrs. Paterson (8).
Mrs. Philbrick (6) vs. Miss Peters (19).

The teams of the ladies' captain and ladies' secretary of the Victoria Golf Club played their last match of the season yesterday. It resulted in a win for the secretary's team, which is now ten points up on the season's play.

The match for the Biggerstaffe Wilson Cup between teams from the Victoria and Seattle Golf Clubs will be played at the Oak Bay links on Saturday, and not in Seattle, as stated yesterday.

Yankees Are Getting Into Hitting Form

After Medicare Showing East Team Is Going Better in West; Other Games

New York, May 15.—The New York Yankees after a fair to middling showing at home, have gone after the two strongest teams of the American League in the West, taking yesterday's game from Detroit 16-11, in a 12 inning nightmare.

Walter Johnson had an off-day yesterday and the Senators again were impeached by Cleveland 6-3.

By trapping the White Sox 9-0, Philadelphia passed into third place, above the Tigers.

Babe Adams, of the Pittsburgh Pirates, allowed only six hits, Pittsburgh winning 4-1.

Brooklyn shifted the lineup of Brooklyn and the new batting order rapped the Cubs 6-3.

Cincinnati passed the drooping Cubs and went into the first division by defeating Philadelphia 7-3, while St. Louis batted hard and beat the Braves 7-1.

RIGHT ARM GIVES DIRECTION FOR BACK-SPIN

World's Champion Golfer.

After the ball is hit on the back-spin, the club is drawn in, so to speak, at a tangent to the flight of the ball. The left elbow is slightly bent in order to allow the clubhead to follow a diagonal line. But note that the right arm is straight and almost on a direct line with the club. Notice the dip of the right shoulder and the position of the right knee and right hip, which are turned in toward the ball.

The left leg should be perfectly straight, showing that the weight of the body has been shifted from the right to the left leg. The feet have not shifted out of position as all during any part of the swing; the left foot is exactly the same place it was at the start of the swing. The right hand should be well out in front as if pointing the direction of the club, in making the backspin I obtain direction mostly with the right arm.

This photo diagram by Sarazen showing position of club after making backspin shot, and the direction taken by the ball on its way to the cup.

Tommies Open Season With a Sparkling Win

Something in the nature of a surprise was created in the Victoria and District Lacrosse League last night when the United Services tied a six to two defeat around the necks of Equimait. The game was staged at Wood Point and was the first of the season, the first time since some of the Tommies had never handled a stick before. They have come along at a surprising clip and got off to a splendid start this year.

The Services showed that they have a team which will take a lot of watching this summer. The players are all in splendid shape, and some of them will more than likely catch places on the Victoria lacrosse team, as they have developed keenly in the art of stick-handling.

Last year the Garrison took up lacrosse in the first time since some of the Tommies had never handled a stick before. They have come along at a surprising clip and got off to a splendid start this year.

Equimait played hard in a goal in the first minute when Ross sent a whistler past Gravin. Before the quarter had ended the Services were out in front, Coulter scoring on a neat, fast kick and tried to stall off the attack of the Tommies but they were unsuccessful.

McCarthy Is Still Master Of Coast Ball

Thwarts Purpose of 'Big Five' by Barring Seattle; A Bitter Meeting

San Francisco, May 15.—Owners of five of the Pacific Coast League baseball clubs were working here last night to expedite the transcript of the minutes of yesterday's special meeting of the league directors in order to carry to the national board of arbitration of the minor leagues an appeal of President William H. McCarthy's action in barring Charles Lockard as a director of the Seattle club.

At the same time President McCarthy was preparing to put into effect his ultimatum that he would carry the investigation of the purchase of the Seattle club by Lockard and Wade Killefer to the highest national body if the Seattle purchasers did not submit themselves to investigation.

McCarthy stated that if he found that William Wrigley, Jr., owner of the Chicago Cubs and Los Angeles had "put up one cent for the purchase of the Seattle club," he would ask that "Wrigley be forever barred from organized baseball."

The board to which the owners of the Oakland, Los Angeles, Salt Lake, Portland and Seattle clubs will appeal consists of the following:

Michael H. Sexton and John H. Farrell, president and secretary, respectively, of the National Association of Professional Baseball Leagues, and the presidents of the Southern Association, South Atlantic League, Piedmont League and the Pacific Coast League. In as much as McCarthy is president of the last named league he will be barred from participation, it was stated.

Stormy and Bitter.
Yesterday's special meeting of the Pacific Coast League directors, termed by officials of the league to be the most stormy and bitter in the history of the organization, was filled with surprises. The "Big Five," comprising Los Angeles, Oakland, Salt Lake, Portland and Seattle, called the meeting for the purpose of quashing all action taken in Portland in January by the "Little Thistles," consisting of San Francisco, Vernon and Sacramento. Seattle voted with the McCarthy faction at that time, but the ownership has since passed to the rival faction.

On the face of the lineup McCarthy was outnumbered 5 to 3. One of the objects of the meeting was to oust McCarthy and substitute a Los Angeles sports writer as president. It was declared, however, that the league proxy refused to permit the seating of Lockard as a director, stating that "Seattle will come into the organization with clean hands or not at all."

McCarthy played the Seattle purchase by Lockard and Killefer in the most bitter language, stating that he intended to uncover every detail of the deal.

McCarthy Talks Hard.
Wrigley's statement to the effect that Lockard and Killefer put up their own money for the purchase of the club was characterized as a "stunt of lies" by McCarthy, who said that the sport-loving public would not stand for syndicate baseball. By refusing to recognize Lockard as a director, McCarthy cut the "Big Five" votes to four, and by casting his own ballot with the "Little Thistles" McCarthy made every vote a four-four tie. Therefore, every resolution offered by the "Big Five" was lost and the effort made to rescind all action taken at the Portland meeting last January was lost.

PUTS HEALTH AND VIM INTO WOMEN

So Says Mrs. MacPherson of Lydia E. Pinkham's Vegetable Compound

Brantford, Ont.—"I was always tired and the least exertion would put me out for a day or two. I had a pressing pain on the top of my head, pain in the nape of my neck, and when I stooped over I could not get up without help, because of pain in my back. I did not sleep well and was nervous at the least noise. I keep house, but I was such a wreck that I could not sweep the floor nor wash the dishes without lying down afterwards. A friend living near me told me what Lydia E. Pinkham's Vegetable Compound had done for her so I began to take it. With the first bottle I felt brighter and got so I could wash dishes and sweep without having to lie down. Later I became regular again in my monthly terms. I have taken ten bottles all told and am now all better. I can truly say that your wonderful medicine cannot be beaten for putting health and vim into a woman."

Mrs. JAMES H. MACPHERSON, 309 Greenwich St., Brantford, Ont.

If you are suffering from a displacement, irregularities, backache, or any other form of female weakness write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women."

Iron Rejuvenates Blood; Yeast Quickens Life-Building Cells

If you feel that you are "slowing-up,"

If the day's work tires you more than formerly, or if you lack the punch and stay-there power of your younger days, nothing will bring such quick improvement or produce such amazing tonic effects as this new combination of iron and yeast, known as Ironized Yeast.

For the first time scientists are now able to give you power that acts directly on the blood. As everyone knows, yeast has proved itself to be of untold value in strengthening the life-building processes. But something was needed to build up thin, pale, weak blood and thus make yeast potent and to establish far-reaching effects in its work of physical reconstruction of the vital functions of the body.

Scientists now agree that brewers' yeast is the richest source of vitamins known. So thousands of pale, sick and underweight people are gaining health and strength through Ironized Yeast, which is a combination of iron and other valuable tonic ingredients with yeast imported from Ham Ale Brewery, England, and especially concentrated under the process recommended by Dr. A. Seidell, of the Hygienic Laboratory of the U. S. Public Health Service.

Get Ironized Yeast from your druggist to-day. It is guaranteed to give satisfactory results or your money will be cheerfully refunded.

MRS. HENRY McDONALD

This Article Will Interest Every Mother!

Toronto, Ont.—"Dr. Pierce's Favorite Prescription is the greatest help in motherhood of any medicine I have ever known. I am the mother of six children and I suffered greatly each time except the last one, when I was advised to take Dr. Pierce's Favorite Prescription, which I did, and I got along just fine; felt well and strong and had practically no suffering, and had a grand baby, that has always been very healthy. I regained my strength very quickly afterward. I was so thankful to have been advised of this medicine, it gave me such wonderful help."—Mrs. Henry McDonald, 3 Wilmet Avenue.

Health is of vital importance to every mother. No neglect the most valuable asset you have. Get this Prescription of Dr. Pierce's from your neighborhood druggist, in tablets or liquid, or send 10 cents for trial package to Dr. Pierce's Laboratory in Bridgeburg, Ont. (Advt.)

Women with ideals want a paper with ideals. Therefore The Times—every evening

VICTORIAN HONORED BY K. OF P. OFFICERS

Delegates Home From Grand Lodges of Knights of Pythias and Pythian Sisters

One of the outstanding features of the recent grand lodge convention of the Knights of Pythias and Pythian Sisters at Nelson, from which the delegates have just returned home, was the presentation of a Grand Lodge vanguard's jewel of twenty-five years' service to the grand keeper of records and seal, Brother Emil Pfander, of Victoria.

Mayor L. H. Choquette addressed the delegates, who represented all parts of the Province.

The Banquet

After a morning and afternoon session of the Grand Lodge a banquet was held in the Eagles' Hall at 6.30 p.m., attended by Grand Lodge delegates of the Knights and Pythian Sisters as well as the Dokes and local members of both organizations, there being 400 persons present.

Bro. William Irvine of Nelson acted as Chairman, Supreme Master at Arms, Brother E. S. H. Winn, of Vancouver, B.C., spoke at length of the success of the Lodges and the Pythian Sisters' Temples, there now being from the latest reports over 1,000,000 members of the Knights and 300,000 members of the Sisters. He also stated that a resolution on the drug trade had been passed and that would bring home the situation to the people of British Columbia, also a resolution in regard to exclusion of the Oriental race in B.C., which met with strong support. Following the banquet the members of the Dramatic Order Knights of Khorassan, led by the Nelson Band, paraded through the main streets of the city. Large bright torches and full regalia costumes of the Dokes made an effective array. Corralled in a rope were some 50 Tyros following the parade, followed by a Grand Ceremonial which convened at 9.30 p.m. and finished up about 2 in the morning.

Grand Lodge Officers

On Thursday morning the election of Grand Lodge officers took place and the following were duly elected to their respective offices:

Grand Master, W. G. Hooper, of Vancouver, B.C.

Grand vice-chancellor, H. G. Svoboda, of Nelson, B.C.

Grand Scribe, James Fairbairn, of Merritt, B.C.

Grand K.R.S., Emil Pfander, of Victoria, B.C., twenty-ninth term.

Grand Master of Ceremonies, A. G. Harding, of Victoria, B.C., eighth term.

Grand master-at-arms—W. A. McLeod, of Powell River, B.C.

Grand inner guard, George Gray, of Vancouver, B.C.

Grand outer guard, J. G. Whittman, of Revelstoke, B.C.

Supreme representatives, George Miller, of Vancouver, B.C., and J. L. Brown, of Vancouver, B.C.

Next Grand Lodge convention will be held in the city of Revelstoke in October, 1924, the session having been changed from the month of May to the month of October to suit the requirements of the majority of the delegates.

On Thursday evening the grand convention ball was held in the Eagles' Hall and was attended by a large gathering, about 450 persons being present.

Shen El Nessim Temple No. 172 had charge of the ceremony, with William McCandlish Royal Visier and full line of degree officers.

Pythian Sisters.

Mrs. W. O. Rose the first Past Chief of the local branch of the Pythian Sisters in Nelson, on behalf of the six remaining past officers of the original Pythian Sisters' Order which was organized 16 years ago on May 8, presented a birthday cake adorned with 16 candles to the members.

William Lacey, a charter member of the Order made the cake, and the Grand Chancellor, Brother R. J. Gardner, who is a member of the Pythian Sisters' Order, cut the cake and each member participated in a small piece as a souvenir of the event.

Brother Noble Blinn, of Trail, moved a vote of thanks to the Sisters of Nelson, B. C., and to the Sister Lodge.

After the banquet the Sisters adjourned to the Oddfellows' Hall where the degree team from Trail put on an exhibition of the work and the team from Trail, together with a team from Grand Forks, B. C., put on an exhibition drill which was so well matched that the judges were unable to award a decision in the matter. Much credit is due to the captains of the various teams for the excellency of the work performed by the various teams.

Local Lady Chosen.

On Thursday morning the election of Grand Lodge officers took place and the following were duly elected to their various offices:

Past Grand Chief, Mrs. Elizabeth Trembath, of Rossland, B. C.; Grand Chief, Mrs. Rose Glover, of Victoria, B. C.; Grand Senior, Mrs. Irene Stein, of New Westminster, B. C.; Grand Junior, Mrs. Ella McFall, of Powell River, B. C.; Grand Manager, Mrs. Fannie Cumberland, of Merritt, B. C.; Grand M. of R. & C., Mrs. Nellie Beach, of Vancouver, B. C.; Grand M. of F., Mrs. Irene Aiken, of Nanaimo, B. C.; Grand Protector, Miss Edith Ross, of Nelson, B. C.; Grand Guard, Mrs. Willie Miller, of Vancouver, B. C.; Supreme Representative, Mrs. Kate Davies, of North Vancouver, B. C., and Mrs. D. Laughon, of Nelson, B. C.; Alternate Representative, Mrs. McLellan, of New Westminster, B. C.

Memorial Service.

On Thursday afternoon a memorial service for departed members was held. The service was in charge of Sister Stein, of New Westminster, assisted by Sister G. A. Herman, Past Grand Chief, and Sister Herdridge, Grand Representative, of Nanaimo. "Weeping Hope" was rendered by Mrs. E. Trembath and Mrs. E. Jewell, both of Rossland. "The Lord is My Shepherd" was rendered by Sister Plant, accompanied by Sister Hodges.

Flowers were placed on the vacant chairs and a resolution adopted that the flowers used in the memorial service be placed on the grave of Sister A. Wilson, of Nelson, a former officer of the organization.

Presentation was made to Mrs. Kate Davies, of North Vancouver, retired Grand M. of R. & C. and an ivory clock in recognition of eight years' service in the office. Mrs. Grace Herman, on behalf of the Grand Lodge gave the address, and Mrs. Rose Glover made the presentation.

THE TIMES DAILY PICTURE PAGE

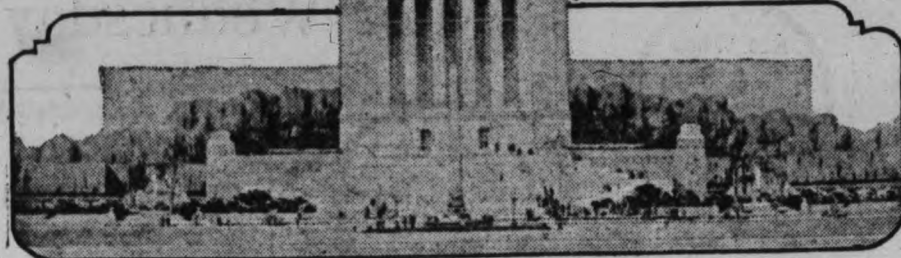

THE "DORIS HYDE DOLL" is now being modelled after "Canada's loveliest child," who is shown above, with one.

WINS RECORD AND BRIDE.
When Barney Allen, former sailor and pugilist, won the Detroit dance marathon with a record of 96 1/4 hours' continuous dancing, he won a bride as well. Miss Olive Carr, "Just a friend," was Barney's first partner. She danced with him 43 1/4 hours. As they neared the end of the 35th hour, Barney popped the question. "You bet!" said Miss Carr, as she did a fancy glide.

MEMORIAL WILL HOUSE AMERICAN LEGION.—Beauty is to be combined with utility in Indianapolis, where the \$2,000,000 Indiana War Memorial, besides honoring the state's heroes, will be the national headquarters of

the American Legion. Plans provide for a memorial plaza, centering about a monumental structure 200 feet high. The upper part of this will be a vast chamber housing a marble figure symbolic of Peace Triumphant.

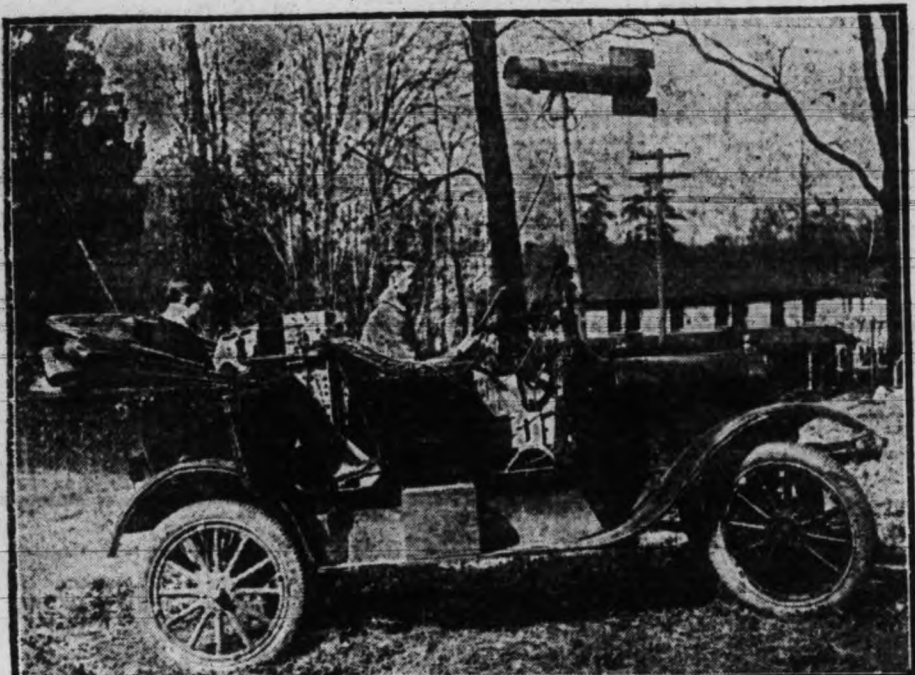

ELEVATED!—Appointment of J. C. Walsh, K. C., to the Superior Court bench of Quebec, is forecast in Montreal. Mr. Walsh was crown counsel in the DeLoime case.

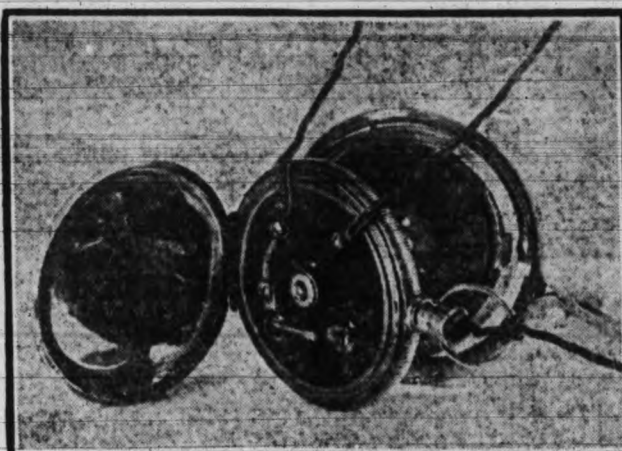

PROMINENT IN ONTARIO ELECTION CAMPAIGN.—A. G. Tisdelle (above), U. F. O. member for North Essex; Thos. Magladeroy (below), Conservative member for Temiskaming.

Anita Delgado, Spanish dancer, has just thrilled Paris by divorcing her husband, the wealthy Maharajah of Kapurthala, Hindu potentate, with a view, it is said, to wedding the maharajah's son, Prince Karamjit Singh.

W. S. James and C. S. Bruce, of the automotive power plant of the bureau of standards, Washington driving the test car to determine the power output of the engine combustion, value of the fuel, wind resistance, etc. This car is also being used in experiments to discover gasoline substitutes and is fitted with a camera which automatically records the fuel consumption.

BUILDS NOVEL SET.—A radio set built in a watch case is the result of much patience and ingenuity on the part of Henry Gailie, of British Columbia, who is continually building receiving sets with each one smaller than the last. The top picture shows both front and back of the watch-case. In front is the crystal, the tuning knob and the terminals, while the mirror reflects the wiring of the tuning coils in the back. Below is Mr. Gailie, who has an unusual ability and interest in building radio sets.

Their legs are somewhat long for the sport, but the leading bankers of the country engage in a race on "Pierce-Arrows" and "Jokomobiles" between sessions in New York City. Left to right, Walter W. Head, of Omaha; R. S. Hecht, of New Orleans; J. H. Pulkner, of Milwaukee, president of the American Bankers Association, and Wm. D. Knox, of New York City, second vice-president of the Association.

SCHOOL DAYS By DWIG

OLD DOCTOR HEN

WHITE OR CHINESE.—Whether Jeung Jau, comely 15-year-old girl, faces a life of misery in the slave dens of China or whether she shall enjoy a life of freedom in America hangs on the decision of a San Francisco court. A fight is raging in that court to-day to determine whether Jeung Jau is white or Chinese. And if the court falls, science with its microscopes and blood-tests may be called on for aid.

How he detests his own medicine administered after his own 1914 directions.

(Copyright 1923. By H. C. Fisher. Trade Mark Reg. in Canada.)

Victoria Daily Times

Advertising Phone No. 1090

RATES FOR CLASSIFIED ADVERTISING
Situations Vacant, Situations Wanted, To Rent, Articles for Sale, Lost or Found, etc., 15c per word per insertion. Contract rates on application.
No advertisement for less than 15c. Minimum number of words 10.
In computing the number of words in an advertisement, estimate groups of three or less figures as one word. Dollar marks and all abbreviations count as one word.
Advertisements may be placed in any column addressed to a box at The Times office and forwarded to their private address. A charge of 1c is made for this service.
Birth Notices, 15c per insertion. Marriage, Card of Thanks and in Memoriam, 15c per insertion. Death and Funeral Notices, 15c for one insertion, 10c for two insertions.

Births, Marriages, Deaths

BORN.

PENKETH—To Mr. and Mrs. T. A. Penketh, at St. Joseph's Hospital, May 13, a son.

DIED.

NASH—Mr. H. H. Nash, at his residence, 1151 Rosty Road, Oak Bay, May 14, a son.

IN MEMORIAM.

BARBER—In fond and loving memory of our dear mother, who entered into rest May 14, 1922.

We will meet again, dear mother. When all our trials are given. In our sorrow to cheer and sustain. That soon with our Saviour in Heaven. We shall meet with our loved ones again.

—Inserted by her Family.

ARRANGE TO PAY MURDER REWARD; NEW CLAIM FILED

Hans Kleson Says He Gave
Police Names of Smith
and Burton

Arrangements were made by the City Council yesterday for paying \$1,000 to the person who supplied information leading to the arrest of the slayer of Lionel Lorenz. This sum was inserted as a "miscellaneous" item in the city budget just before the estimates were finally adopted. Alderman E. R. Andros protested emphatically against the payment of this money. He said the Council's action on the whole question had been irregular. It had been decided to grant the reward after the murder mystery had been solved, he said. This, he added, had been in line with the Council's usual "idiotic policy."

Reward for information leading to the conviction of the murderer was claimed yesterday by Hans Kleson, of 81 San Juan Avenue, in a letter to the City Council. Kleson's letter, which he had supplied the names of Donald Smith and Henry Burton to the City Detective Department.

"On the evening of March 7," the letter stated, "the (Mr. Kleson) informed Mr. O'Leary, of the City's Detective Department, that he knew the names of the boys who had broken into McMillan's second hand store and stolen a revolver, and from information which he had received he believed that it was with this revolver the murderer had killed Mr. Lorenz."

"It was on this information that these three boys were arrested," the Council was told, "and the revolver and other articles found which subsequently led to the detection of the accused."

"Mr. Kleson has instructed us to say that if he is entitled to the reward and if he paid to his intention is, after deducting a reasonable amount for the time which he has remained in Victoria since the information was given and will be obliged to remain until his claim is decided, to hand over the balance to Mrs. Lorenz."

"I suffered years of agony through blind itching piles," says Mrs. W. Hughes, of Hochelaga St., Montreal. "Pain, loss of strength, complete misery, was my daily lot until I came across Zam-Buk. I know now that there is nothing on this earth to equal this grand herbal healer. Since Zam-Buk lifted me from misery my earnest wish is that it will be made known to all other piles sufferers."

Moves Pain Like Magic!

Words can never fully describe the grateful relief which herbal Zam-Buk brings. With it there is instant alleviation of burning pain and itching, swollen, inflamed parts are soothed and healed, causing the piles to gradually but completely disappear. Zam-Buk is equally splendid in eczema, bad legs, scalp disease, burnings, wounds, burns, scalds, etc. 50c box, all dealers.

PAY TRIBUTE TO LATE CITY COMPTROLLER

By a standing vote the City Council yesterday passed a formal resolution expressing its grief over the death of J. L. Raymur, City Comptroller for many years. The resolution recorded "a high appreciation of the long years of Mr. Raymur's faithful and valued service to the City of Victoria and the Council's sympathy with Mr. Raymur's family."

ASKS GOVERNMENT TO PAY CITY FOR PROPERTY SERVICE

Sargent Plan Would Eliminate Current Shortages, Sponsor Says

That the Federal and Provincial Governments be asked to make a substantial contribution to the City Treasury in return for service rendered by the city to government property now located in Victoria here was the proposal laid before the City Council yesterday by Alderman W. J. Sargent. While the Council was too busy yesterday to consider the matter fully, Alderman Sargent announced that he would press the scheme later.

Under the Sargent plan sums contributed by the two governments on their property here would be used to make up shortages on current city financing.

"I don't say this is fair," Alderman Sargent said. "I think we should get more than enough to cover our shortage. I don't think we should get more than enough to cover our shortage. I don't think we should get more than enough to cover our shortage."

If the two governments contributed reasonable sums on their tax-free property here shortages in current financing would be eliminated, Alderman Sargent explained.

Alderman Sargent urged the Council to arrange an immediate conference on the matter with the Provincial Government and secure full data on the extent of government property here.

HORSE-RACING BY-LAW CHANGED

Permit Fee for Over One Day's Race Meet \$5,000

First reading of the Horse Racing Regulation By-law was given at the meeting of the Oak Bay Council last night. Minor amendments were made to the by-law, which passed through the usual three readings and will be submitted at the next council meeting for the final reading.

In brief the by-law provides that any person who wishes to conduct horse racing within the municipality will have to make application to the clerk for a permit. The application will be placed before the council for consideration, and the applicant either issued or refused it. The date and place has also to be mentioned in the application, and if the meet is over one day the duration will require a deposit with the clerk a marked cheque payable to the corporation for a sum equal to \$100 for each day of such race meeting or such other amount as the council shall determine. This money is to cover the policing of the race track.

"Every permit shall contain a condition that one of the judges of the horse races to be held or run pursuant to such permit shall be nominated by the corporation, and that such nominated judge shall be paid reasonable remuneration by the holder of the permit, and that the other judges of such horse races shall be approved by the corporation," the by-law provides.

"The Horse Racing Prevention By-law of the corporation is hereby repealed," is the concluding statement.

PRAYER CIRCLE

After listening to an address by Rev. T. E. Rowe, founder of the Guild of Health, at a meeting in the Belmont Avenue Methodist Church on Sunday, at 4 p. m., those interested decided to organize a Prayer Circle, which it is hoped will become affiliated with the Guild of Health. The pastor, Rev. Lashley Hall, in the opening exercises explained the object of the meeting, and how it came to be arranged, with the idea of conserving the newly awakened interest in the question of divine healing.

OAK BAY CEASURES FIRE PROTECTION

Unsatisfactory Service Being Given, Council Asserts

"It seems to me that the results we have been getting from the City Fire Department service is unsatisfactory," stated Councillor Reid when proposing that a letter be written to the City stating the unsatisfactory feeling that Oak Bay residents have regarding the fire protection given them, and that reports be given them by the Fire Chief on the two last fires which occurred in Oak Bay. This motion was made in the Oak Bay Council last evening.

Only two men were sent out to the last fire, Councillor Haynes asserts, and when they arrived there was only enough hose to make one connection that would reach the house. There was altogether 1,500 feet of hose, and had there been enough hose for two water connections less damage would probably have been done to the house by the fire.

The Duxbury Street fire hall, in the Council's opinion, is inadequately manned. While the firemen were on one side of the house the fire spread and had to be put out by the fire department. The Council did not wish the department to have the impression that the men were not doing their work as Councillor Haynes was of the opinion that the men had done more than their duty working hard to extinguish the fire, one of the men being injured in the process of sustaining a bad fall while working on the house. He fell through the roof right through the next floor to the dining room.

A letter will be written informing the City of the situation and voicing the feeling of dissatisfaction amongst residents of the Municipality regarding the fire protection. It was Councillor Reid's opinion that better service should be given when such a big price was being paid for the service.

DAYLIGHT SAVING IN OAK BAY

Census of Municipality to Be Taken; Decision Reached on Housing Scheme

Oak Bay has adopted daylight saving. "Although I do not favor this system while the public schools are in session, I support it, and we must conform with the other municipalities and adopt the new time," said Councillor Hayward in moving a motion to the effect in the Oak Bay Council last evening.

In Councillor Goodlake's opinion the daylight saving time was "a piece of childish self-deception." The clocks will be set back one hour to conform with the city time, it was decided.

Other business to be discussed was the question of taking a census of Oak Bay. Due to the fact that \$4,000 of the liquor profit money is being held over until some decision is arrived at, it was decided that a census of the Oak Bay municipality should be taken, so that the right number of residents could be learned and the municipality's share of the liquor profits correctly fixed. At present Oak Bay is only credited with 4,100 people, but the Dominion census claims some 5,500 people are residents of Oak Bay, while there is even a possibility of there being 6,000 residents. This would greatly increase the present allotment of money being given the Municipality as its share of the liquor profits. The system and details of taking the census will be arranged by the Reeve and officials. Speedy action will be taken, it was intimated, and the most probable system will possibly be through post cards.

Housing Scheme.
In discussing the Nanaimo letter on the Dominion's responsibility for housing the motion was made that the Municipality should take the responsibility of administration cost, but that the Federal Government should be responsible for any deficit. The motion was carried unanimously.

The invitation from the Publicity Bureau inviting the Oak Bay Council to attend the formal opening of the Victoria Tourist Auto Camp on May 15 was accepted, and Reeve Hewitt appointed to represent the municipality at this ceremony. In connection with the Victoria-Saanich Beaches committee asking for joint construction of steps to the beach at the municipal boundary at Cadboro Bay, the Council was divided on the subject. There was a majority who thought that the building of concrete steps at this point was far too expensive and dangerous. The sea might undermine the steps, and the construction of concrete steps, it was thought, while the ascent at that point was much too steep and high when only 300 yards further on the land came almost to a level with the beach. It was also the opinion of some of the councillors that the steps would best benefit the store owners nearby.

SHOULD DO BRIDGE WORK BY CONTRACT

KER TELLS COUNCIL

All remaining work connected with the Johnson Street Bridge should be done by private contractors, companies as far as possible, Alderman R. H. B. Ker told the City Council yesterday. He urged that tenders be called for the work of preparing the westward extension of Johnson Street for paving and for the filling of a big retaining wall at the east end of the bridge.

"The only question is whether the city has learned anything from our lesson with day labor in the past," Alderman Ker declared. "Our experience has been that thousands and thousands of dollars of the money we expected has been required for the bridge."

Alderman Woodward urged the Council to do the work in question by contract, so as to avoid paying contractors' profits.

"We're not contractors," Alderman Andros objected. "We can't do the work as cheaply as contractors, as this is their business."

Finally the aldermen agreed to postpone until Friday decision on the contract question.

NO STRAW VOTE ON LIQUOR STORE

Contrary Petitions Hold Field in Esquimalt Undisturbed

There will be no straw vote on the liquor store question at the by-election in Esquimalt on Saturday, it was decided at a meeting of the Esquimalt Council last night. The meeting was a special one called by the Reeve and the Council to consider the action of Esquimalt towards the Maytime Frolic.

The liquor question arose when it was stated in passing that a contrary petition had been put in circulation, it was understood. With both "pro" and "anti" petitions making the rounds the Council decided that no straw vote would be necessary.

Two Council meetings ago Councillor Nicol brought the attention of that body to the fact that there was some talk of establishing a branch of the Government Liquor Store in Esquimalt. It would be a mistake, he felt, and the Council ought to take action. The Reeve and other members of the Council expressed themselves on the matter, and finally a vote was taken as to the stand of the entire body in the light of the proposals. Councillors Anderson and Hewitt were opposed to any action by the Council at that stage.

Last night on a similar vote, this time with the straw vote in question, Reeve Lockley joined the "pro" members of the Council, and the straw vote lost out. It would be as well with two petitions going around, said the Reeve, for the Council to keep clear of the discussion entirely. The Esquimalt Police Commission on the other hand has already expressed its opinion as against the institution of a liquor store in Esquimalt without the wish of the people being taken. There was no intention of giving Esquimalt a liquor store without first knowing its wish, was intimated to the Council recently in replies from the authorities. The withdrawal of the possibility of a straw vote on Saturday leaves the field open to the contrary petitions, which are now seeking signatures in the district. Esquimalt is very much divided over the whole matter.

In Street Parade.

Reverting to the business of the special meeting, the Maytime Frolic, the Council and representatives from other public bodies agreed on a line of united action. Esquimalt will stand as one on the question of entering floats in the parade. There may be four or five floats if present plans in Esquimalt mature. Reeve Lockley was last night appointed as chairman of a committee with powers to add, to take charge of the plans now being formulated in the district. Esquimalt this year plans to make an unprecedented showing in the annual celebrations on May 24. The work will be done by a committee featuring every organization in the district, and it is expected that something unusually worth while will be the result of those united efforts.

Why So Pretty?

Analyze a beauty's beauty

Note how white teeth count

If you ever envy pretty teeth, let us show you how folks get them. You see them everywhere today. They have brought to millions new charm and new beauty.

It is so the world over, for people are using a new cleaning method now. And largely by dental advice.

They fight film
Film makes teeth dingy—that vicious film you feel. It clings to teeth, enters crevices and stays. Food stains, etc., discolor it, then it forms cloudy coats. Tartar is based on film. That's why beautiful teeth were seen less often than now.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. That's why

tooth troubles came to nearly all. Germs breed by millions in film. They, with tartar, are the chief cause of pyorrhea, now so alarmingly common.

Old ways inadequate
No ordinary tooth paste effectively combats film. So nearly everybody suffered more or less. Then dental science, after long research, found two film combatants. One acts to curdle film, one to remove it, and without any harmful scouring.

Able authorities proved these methods by many careful tests. Then a new-type tooth paste was created, based on modern research. These two great film destroyers were embodied in it.

That tooth paste is called Pepsodent. It is daily used by careful people of some 50 nations now.

Made in Canada

Pepsodent
REG. IN CANADA

The New-Day Dentifrice

A scientific tooth paste based on modern research, free from harmful grit. Now advised by leading dentists the world over.

Free A 10-Day Tube

See Coupon

Avoid Harmful Grit
Pepsodent curdles the film and removes it without harmful scouring. Its polishing agent is far softer than enamel. Never use a film comb which contains harsh grit.

These things also
Dental research proved other things essential. So Pepsodent multiplies the alkalinity of the saliva. That is there to neutralize mouth acids, the cause of tooth decay.

It multiplies the starch digestant in the saliva. That is there to digest starch deposits which may otherwise ferment and form acids.

Thus Pepsodent gives manifold power to Nature's great tooth-protecting agents.

This test will tell
Pepsodent quickly proves itself. The changes in a week will delight you.

Send this coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

This test may change the whole dental history of your home. Cut out the coupon now.
